**Influences of the IEA Civic and Citizenship Education Studies**

Barbara Malak-Minkiewicz 2021-05-26 This open access book identifies the multiple ways that IEA's studies of civic and citizenship education have contributed to national and international educational discourse, research, policymaking, and practice. The IEA International Civic and Citizenship Education Study (ICCS), first conducted in 2009, was followed by a second cycle in 2016. The project was linked to the earlier IEA Civic Education Study (CIVED 1999, 2000). IEA's ICCS remains the only large-scale international study dedicated to formal and informal civic and citizenship education in school. It continues to make substantial contributions to understanding the nature of the acquired civic knowledge, attitudes, and participatory skills. It also discusses in-depth how a wide range of countries prepare their young people for citizenship in changing political, social, and economic circumstances. The next cycle of ICCS is planned for 2022. In this book, more than 20 national representatives and international scholars from Europe, Latin America, Asia, and North America assess how the processes and findings of the 2009 and 2016 cycles of ICCS and CIVED 1999/2000 have been used to improve nations' understanding of their students' civic knowledge, beliefs, attitudes, current civic-related behaviors, and intentions for future participation in a comparative context. There are also chapters summarizing the secondary analysis of those studies' results indicating their usefulness for educational improvement and reflecting on policy issues. The analyses and reflections in this book provide timely insight into international educational discourse, policy, practice, and research in an area of education that is becoming increasingly important for many

societies.

*Civic Education and Contested Democracy* Wim de Jong 2020-10-14 This book explores citizenship education and democracy in the Netherlands. From the Second World War to the present day, debates about civic education and democracy have raged in the country: this book demonstrates how citizens, social movements and political elites have articulated their own notions of democracy. Civic education illustrates democracy as an essentially contested concept – the transmission of political ideals highlights conflicting democratic values and a problem of paternalism. Ultimately, who dictates what democracy is, and to whom? As expectations of citizens rise, they are viewed more and more as objects of a pedagogical project, itself a controversial notion. Focusing on what democracy means practically in society, this book will be of interest to scholars of citizenship education and post-war Dutch political history.

**Teaching and Learning on the Verge** Shanti Elliott 2015 Based on 20 years of teaching experience and research in schools across the country, *Teaching and Learning on the Verge* demonstrates how educators in all disciplines can integrate civic engagement, multicultural literacy, and leadership into their classrooms and programs. Featuring voices from literature and philosophy in dialogue with the living stage of classrooms, streets, and community spaces, this book offers an imaginative and practical guide to democratic education. *Teaching and Learning on the Verge* will help educators to: Apply models for breaking down walls between school and society. Provide students with experiences that deepen their understanding of identity, justice, and relationships. Make learning meaningful to students by bridging communities, generations, and other social divides. Resist a narrow focus on achievement and make space for students as independent thinkers and leaders of social change. Make schools stronger by challenging the processes that people in power use to thwart movements for equality. "Teaching and Learning on the Verge exemplifies the giddiness, unpredictability, and intrinsic messiness of democratic action and civic learning. Elliott offers an engaging whirlwind of examples and ideas in examining civic action among and with youth in a multicultural democracy." —Meira Levinson, associate

professor of education, Harvard Graduate School of Education “One teacher’s efforts to practice democracy in her classroom, becomes a scholarly, yet sparkling, exploration of the thought and practice and real difficulties involved in enacting varieties of democratic learning. Personal testimony goes hand in hand with intellectual depth to produce this vital handbook for adventurous teachers everywhere.” —Jay Featherstone, poet, writer, and educator, former editor of *The New Republic*

Why History Education? Nadine Fink 2023-08-22 Sinn und Zweck der Geschichte werden immer wieder neu hinterfragt, weil sich Gesellschaften ständig neu verorten. Davon ist der Geschichtsunterricht direkt betroffen: "Warum Geschichtsunterricht?" Autor\*innen aus 18 Ländern und vier Kontinenten fragen daher nach der Bedeutung des Geschichtsunterrichts aus unterschiedlichen Perspektiven: mit theoretischen Überlegungen und Modellen, mit Bezügen aus der Unterrichtspraxis und Erkenntnissen aus der Forschung. Die Publikation präsentiert eine ganze Reihe von Gründen, warum Geschichte heute unbedingt unterrichtet werden muss. Sie liest sich als Plädoyer für einen kompetenten Umgang mit Geschichte in heutigen Gesellschaften.

**Transformative Civic Education in Democratic Societies** Tetyana Hoggan-Kloubert 2023-08-01 Democracy is neither inevitable nor guaranteed to last. To survive, democracy needs people adequately prepared to enact it. Such preparation for effective citizenship in a complex and plural world requires an adult civic education, one that goes beyond simple knowledge acquisition. It requires a transformative education to help learners become agents and co-shapers of their worlds. This book offers examples of the roles that civic education has played and can play in different communities. In this collection, scholars from around the world report and reflect on civic adult education, examining approaches, paradigms, and concepts that help us to act in culturally, ethnically, linguistically, and religiously diverse societies.
