administration available, now updated to include the latest standards and address new technologies. This reference text provides a complete instructional overview of the workings of the library media center—from the basics of administration, budgeting, facilities management, organization, selection of materials, and staffing to explanations on how to promote information literacy and the value of digital tools like blogs, wikis, and podcasting. Since the publication of the fourth edition of *Administering the School Library Media Center* in 2004, many changes have altered the landscape of school library administration: the implementation of NCLB legislation and the revision of AASL standards, just to mention two. The book is divided into 14 chapters, each devoted to a major topic in school library media management. This latest edition gives media specialists a roadmap for designing a school library that is functional

and intellectually stimulating, while leading sources provide guidance for further research.

A Short Guide to Action Research

Andrew Paul Johnson 2005 This compact, user-friENDly text provides readers with everything a pre-service or in-service teacher needs to know about conducting an action research project in a clear, step-by-step format. *A Short Guide in Action Research, Second EDITION*, guides the learner through the comprehension and interpretation of both qualitative and quantitative techniques in educational research methods and then describes all phases of the process, including selecting a topic; collecting, analyzing, and reporting data; reviewing the literature; and presenting the report. Data collection techniques reflecting popular authentic assessments and real-life examples enliven concepts throughout the text. This user friENDly, practical text provides readers with the skills they need and the steps to take for conducting accurate
