Reflections on Sharing Clinical Trial Data National Academies of Sciences, Engineering, and Medicine 2020-11-20 On November 18 and 19, 2019, the National Academies of Sciences, Engineering, and Medicine hosted a public workshop in Washington, DC, titled *Sharing Clinical Trial Data: Challenges and a Way Forward*. The workshop followed the release of the 2015 Institute of Medicine (IOM) consensus study report *Sharing Clinical Trial Data: Maximizing Benefits, Minimizing Risk, and* was designed to examine the current state of clinical trial data sharing and reuse and to consider ways in which policy, technology, incentives, and governance could be leveraged to further encourage and

[Police Violence](#) William A. Geller 1959-12-11 Although the prevalence of police-citizen conflict has diminished in recent decades, police use of excessive force remains a concern of police departments nationwide. This timely book focuses on what is known and what still needs to be learned to understand, prevent, and remediate police abuse of force. The topics covered include: a theory of police

abuse of force; the causes of police brutality; measures of its prevalence; the violence-prone police officer; public opinion about police abuse of force; the issue of race; officer selection, training, and attitudes; police unions and police culture; administrative review; procedural justice and the review of citizen complaints; the role of lawsuits; and a survey of police brutality abroad. In the final chapter Geller and Toch suggest new directions for research and practical innovations in law enforcement, from which both police and citizens can benefit. The contributors to this volume are scholars of criminology, criminal justice, social psychology, law, and public administration; former police managers; a police union leader; civilian oversight agency administrators and analysts; civil liberties advocates; police litigation expert witnesses; and media commentators. The combination of theoretical and practical perspectives makes this book ideal for students and

scholars of democratic policing and for those in police departments, government, and the media charged with addressing and understanding the problem of improper exercise of force.
