**American Cars, Trucks and Motorcycles of
World War I** Albert Mroz 2010-03-08 Even
before American involvement in World War I,
motor vehicle manufacturing in the United
States was widespread and diverse, though the
war served to expand the market rapidly.
Hundreds of companies were building vehicles
for military as well as civilian use during this
time. From their beginnings until their demise,
the histories of 225 companies that

manufactured cars, trucks or motorcycles for the
civilian market are provided, along with
illustrations and specs of representative models
from each company that existed in 1917 and
1918.

How to Build a Kit Bike Jonathan Wood
2002-10 Scratch built motorcycles remain very
popular. In order to simplify the process, many
companies in the American V-twin aftermarket
are selling kits. Three of these companies,
Custom Chrome, Arlen Ness and Biker1s Choice,
have excellent programs. All offer very complete
kits that allow the builder to assemble a
complete motorcycle without any additional
purchases. All that's missing is labor and paint.
The book will document, with detailed photos
and copy, the assembly from beginning to end,

of three motorcycles from the firms mentioned above. Because of the technical nature of this book, there will be more images and less copy than in other Wolfgang Publication books. Each sequence will be illustrated by at least 200 images. Approximately 60% of these images will be in color. This book will also contain side-bars on tools and basic assembly techniques, all designed to aid the first time builder.
