Higher Engineering Science

William Bolton 2012-08-21

Higher Engineering Science aims to provide students with an understanding of the scientific principles that underpin the design and operation of modern engineering systems. It builds a sound scientific foundation for further study of electronics, electrical engineering and mechanical engineering. The text is ideal for students, including numerous features designed to aid student learning and put theory into practice: * Worked examples with step-by-step guidance and hints * Highlighted key points, applications and practical activities * Self-check questions included throughout the text * Problems sections with full answers supplied Further worked examples, applications, case studies and assignments have also been incorporated into this second edition. Assuming a minimum of prior knowledge, the book has been written to suit courses with an intake from a range of educational backgrounds. The

new edition has been designed specifically to cater for the compulsory core Engineering Science unit for HNC and HND qualifications, and updated throughout to match the syllabus of the new BTEC Higher National Engineering schemes from Edexcel. It will also prove ideal for introductory science modules in degree courses.

BTEC Award First Applied Science: Application of Science Unit 8 Revision Guide

Jo Locke 2014-11 The new BTEC First Applied Science Unit 8 revision guide is perfect for supporting the new externally assessed unit. Includes clear and concise revision notes. Maths skills sections support the mathematical element of the specification. Summary and exam-style questions provide plenty of practice opportunities, with questions clearly differentiated. "Bump up your grade" sections provide valuable hints for the exam.

Key Questions in Zoo and Aquarium Studies Paul A, Rees 2021-08-19

An understanding of the work of zoos and aquariums is central to many programmes of study in wildlife conservation and more specialised programmes in zoo and aquarium science and management. This book is intended as a study and revision guide for students following these programmes. It contains 600 multiple-choice questions (and answers) set at three levels - foundation, intermediate and advanced - and grouped into 10 major topic areas. The book has been produced in a convenient format so that it can be used at any time in any place. It allows the reader to learn and revise the meaning of terms used in zoo and aquarium biology, the

principles of animal husbandry and enclosure design, the behaviour of zoo visitors, the operation of captive breeding programmes, the international organisation of zoos, their legal regulation and much more.

BTEC First Applied Science: Principles of Applied Science Unit 1 Revision Guide Jo Locke 2014-11 Endorsed by Edexcel, the new BTEC First Applied Science Unit 1 revision guide is perfect for supporting the new externally assessed unit.

Includes clear and concise revision notes. Maths skills sections support the mathematical element of the specification. Summary and exam-style questions provide plenty of practice opportunities, with questions clearly differentiated. "Bump up your grade" sections provide valuable hints for the exam.
