Building Content Literacy

Roberta Sejnost 2010-02-26

Presenting a snapshot of how adolescents learn, Roberta L. Sejnost and Sharon M. These offer research-based best practices and strategies that enable teachers to increase student learning by more effectively integrating reading, writing, and critical thinking into their content instruction. **Building Content Literacy: Strategies for the Adolescent Learner** begins with a discussion of the challenges of teaching adolescents and follows with: - Strategies to foster acquisition of specialized and technical content vocabulary - Specific processes and skills students may use to comprehend narrative and expository texts - A variety of

writing-to-learn strategies

Speaking-to-learn strategies.

Finally, the authors consider the challenges that face students in the age of technology and address the new literacies that can be utilized to engage students and increase learning.
