Technologies for Education Ann E. Barron 2006-07-30 This fifth edition of a well-known and respected book provides the latest information on a variety of educational technology topics (with a new chapter featuring PDAs) and demonstrates how technologies can best be applied in educational settings. The book has been completely revised and updated to reflect today's technologies available to educators. Chapters include: Teaching With Technology;

Digital Audio; Digital Video; Computer Graphics; Telecommunications; Distance Learning and others.

Fundamentals of Building Construction Edward Allen 2013-10-14 Note from the publisher: Now in its sixth edition, this bestselling reference focuses on the basic materials and methods used in building construction. Emphasizing common construction systems such as light wood frame, masonry bearing wall, steel frame, and reinforced concrete construction, the new edition includes new information on building materials properties; the latest on "pre-engineered" building components and sustainability issues; and reflects the latest building codes and standards. It also features an expanded series of case studies along with more axonometric detail drawings and revised photographs for a thoroughly illustrated approach.
