**Comparative Theology and the Problem of Religious Rivalry** Hugh Nicholson 2011-04-08

In theological discourse, argues Hugh Nicholson, the political goes "all the way down." One never reaches a bedrock level of politically neutral religious facts, because all theological discourse - even the most sublime, edifying, and "spiritual"--is shot through with polemical elements. Liberal theologies, from the Christian fulfillment theology of the nineteenth century to the pluralist theology of the twentieth, have assumed that religious writings attain spiritual truth and sublimity despite any polemical elements they might contain. Through his analysis and comparison of the Christian mystical theologian Meister Eckhart and his Hindu counterpart ĪSkara, Nicholson arrives at a very different conclusion. Polemical elements may in fact constitute the creative source of the expressive power of religious discourses. Wayne Proudfoot has argued that mystical discourses embody a set of rules that repel any determinate understanding of the ineffable object or experience they purport to describe. In *Comparative Theology and the Problem of Religious Rivalry*, Nicholson suggests that this principle of negation is connected, perhaps through a process of abstraction and sublimation, with the need to distinguish oneself from one's intra- and/or inter-religious

adversaries. Nicholson proposes a new model of comparative theology that recognizes and confronts one of the most urgent cultural and political issues of our time: namely, the "return of the political" in the form of anti-secular and fundamentalist movements around the world.

This model acknowledges the ineradicable nature of an oppositional dimension of religious discourse, while honoring and even advancing the liberal project of curtailing intolerance and prejudice in the sphere of religion.

*Racing in the Street* June Skinner Sawyers 2004-04-06 For more than three decades, Bruce Springsteen's ability to express in words and music the deepest hopes, fears, loves, and sorrows of average Americans has made him a hero to his millions of devoted fans. *Racing in the Street* is the first comprehensive collection of writings about Springsteen, featuring the most insightful, revealing, famous, and infamous articles, interviews, reviews, and other writings. This nostalgic journey through the career of a rock-'n'-roll legend chronicles every album and each stage of Springsteen's career. It's all here—Dave Marsh's Rolling Stone review of Springsteen's ten sold-out Bottom Line shows in 1975 in New York City, Jay Cocks's and Maureen Orth's dueling Time and Newsweek cover stories, George Will's gross misinterpretation of Springsteen's message on his Born in the USA tour, and Will Percy's 1999 interview for Double Take, plus much, much more.
