*Contesting Autocratisation*

Bilge Yabanci 2025-12-01

While authoritarianism  
continues to gain ground  
globally, this book offers a  
global and nuanced perspective  
into how, when, and where  
autocratisation may be  
contested and sometimes  
reversed. Drawing on rich case  
studies from across Africa,  
Asia, Latin America, and  
Southeastern Europe, the  
chapters in this book map the

actors and institutions of  
resistance, ranging from  
political parties and  
bureaucrats to social  
movements and transnational  
alliances. Rather than offering  
a binary view of success or  
failure of opposition and  
resistance, this book adopts a  
dynamic, process-driven  
approach, considering the  
conditions under which  
resistance emerges, adapts,  
and persists even in shrinking  
civic and political spaces.  
Whether through informal  
bureaucratic defiance, legal  
mobilisation, elite rivalries,  
transnational alliances,  
strategic litigation, or protest  
coalitions, these strategies  
reveal the agency of opposition  
actors navigating complex and  
often hostile terrains. These  
diverse experiences force us to  
rethink resistance as an  
ongoing, collective effort  
rather than a single moment of  
reversal. This volume spans  
multiple disciplines, including  
political science, sociology,  
international relations, and  
legal studies, making it  
essential reading for students,
