2019-06-28 "An Aircraft Dispatcher (ADX) is a licensed airman certificated by the Federal Aviation Administration (FAA), typically employed by airlines or companies operating large transport-category aircraft, who has joint responsibility with the captain for the safety and operational control of flights. Dispatchers legally authorize flight departures and have authority to delay or cancel flights if unsafe conditions exist. They

disseminate flight information to the company and are the source of information provided to the traveling public. The FAA Practical Exam for Aircraft Dispatcher is equivalent to the Airline Transport Pilot (ATP) oral exam that an airline captain must successfully complete. This Aircraft Dispatcher Oral Exam Guide prepares you for the exam with an explanation of the certification process, knowledge requirements in a question-and-answer format, and reference materials for further study. It covers the aircraft dispatcher Practical Test Standard subject areas such as route planning, regulations, training and currency requirements, certification, responsibilities and authority, aviation weather, manuals and documents, as well as practical applications of all topics.
