TechTV's Starting an Online Business Frank Fiore 2001 Author Frank Fiore gives the reader a foundation for starting an online business. The book is divided into 5 parts. It starts with an explanation of e-commerce, what to sell, how to sell it, how to plan it and where to find the money to fund it. Then it gives the reader the basics of setting up shop on the Web, where to host it, some e-commerce Dos and Don'ts, and how to take orders and ship them. Finally, it will cover the essentials of marketing and promoting their new business. The book is organized in such a way that the reader can quickly find a topic and get the information they need to set up their own online business.

Federal Energy Regulatory Commission Reporter 1993

Selling Online Jim Carroll 1999 "Selling my product online opens up a new world of opportunity, but I have so many questions before I take the leap. Does it cost a lot of money to establish an account? Is it realistic for a small business? What about security issues? How do I get noticed if I do set up shop?" Many Canadian business people recognize that online sales is an exciting, cutting-edge phenomena, but most of them don't know where to start or how to make the most of this powerful business option. Designed as a roadmap for merchants, this innovative book will close the gap between the hype and the real Internet profits. Written by two of Canada's foremost Internet experts, *Selling Online* takes the reader through the entire process covering online shopping, customer service issues, business planning,

selecting an e-biz platform, changing consumer behaviour and the nuts and bolts of SET and SSL. This book is a trusted resource that will guide merchants step-by-step, through the e-commerce maze.
