Does learning high school essay-writing feel like a chore? Welcome to the Put Some Pants on That Kid writing curriculum! Put Some Pants on That Kid takes a big-picture, practical approach to writing, addressing the why behind the typical expectations for essays and research papers, and providing students the tools they need to understand those larger concepts, master them, and extrapolate them to future writing assignments. The Put Some Pants on That Kid curriculum is recommended for students at the 9th-12th grade levels, and covers: --Essay writing (narrative and argumentative/persuasive) --Research papers & research techniques -- Practical writing (business letters, business emails, resumes, cover letters, and writing in online spaces such as blogs or social media) --An introduction to citation requirements and formatting for MLA and APA and more! **Latino Language and Literacy in Ethnolinguistic Chicago** Marcia Farr 2005-01-03 This volume--along with its companion *Ethnolinguistic Chicago: Language and Literacy in the City's Neighborhoods*--fills an important gap in research on Chicago and, more generally, on language use in globalized metropolitan areas. Often cited as a quintessential American city, Chicago is, and always has been, a city of immigrants. It is one of the most linguistically diverse cities in the United States and home to one of the largest and most diverse Latino communities. Although language is unquestionably central to social identity, and Chicago has been well studied by scholars interested in ethnicity, until now no one has focused--as do the contributors to these volumes--on the related issues of language and ethnicity. *Latino Language and Literacy in Ethnolinguistic Chicago* includes: \*ethnographic studies based in home settings that focus on ways of speaking and literacy practices; \*studies that explore oral language use and literacy practices in school contexts; and \*studies based in community spaces in various neighborhoods. It offers a rich set of portraits emphasizing language use as centrally related to ethnic, class, or gender identities. As such, it is relevant for anthropologists, sociologists, linguists, historians, educators and educational researchers, and others whose concerns require an understanding of "ground-level" phenomena relevant to contemporary social issues, and as a text for courses in these areas.

*The Writing Process* John M. Lannon 2004 This writing guide/reader/handbook demystifies writing by presenting the writing process as a series of critical thinking decisions about audience and purpose. Widely admired for its clear, readable style, "The Writing Process" focuses on writing as decision-making, with a wealth of student samples in various draft stages and a strong collection of professional readings--essays, fiction, poetry, memoirs, and cartoons--to illustrate writing strategies. Helps readers understand the writing process. Writing process, research process. Anyone who wants to learn to write well.
