Writing, Imitation, and Performance Irene L. Clark 2022-12-02 This book reconsiders imitation as a valuable pedagogical approach in Writing Studies. Countering concerns about product-oriented teaching, formulaic writing, paternalistic or elitist pedagogy, and plagiarism, the book maintains that the use of imitation can offer a writer greater insight and help to develop a clear writerly identity. Positing that writers often use imitation as a step toward developing new directions, structures, and styles, and that this imitation is indeed a form of performance, the author explores the neuropsychological aspect of imitation to show how it is a valid form of writing instruction. She explains how learning, experience, and role playing are manifested in the brain and influence one's sense of self, one's identity. The book emphasizes that imitation can provide students with opportunities to perform habitually as writers, readers, and critical thinkers, enabling them to develop new understandings and confidence in their ability to improve. It also includes suggestions for classroom application, written by Craig A. Meyer. This book offers important insights for scholars and teachers of writing and composition, education, and communication studies.

Personal Narrative, Revised Bronwyn Clare LaMay 2016 In this inspirational book, LaMay

shows readers how to transform classrooms and schools into places where youth can explore the intersection between literacy and their lives. This book is the culmination of a literacy curriculum that the author and her high school students wrote dialogically, beginning with their attempt to define love. Through real-life classroom examples, they demonstrate how an innovative curriculum that intertwines personal and academic engagement can create space for students to explore their identities, connect to literary texts, and develop agency as writers and thinkers. In this important contribution to literacy educators, the author shows how personal narratives can help students rebuild their fractured relationships with school and envision writing and academic achievement as playing a role in their futures. Book Features: Evidence of how students' social-emotional and academic growth may intertwine in the interest of school engagement. A re-conceptualization of the complex layers of the personal narrative genre and its role in the pedagogy of academic

writing. A reinterpretation of the transformational role of revision in students' academic and life texts. Examples of writing and interview data that illustrate the diversity of student responses.
