

Beyond Manifest Destiny Study Guide

Beyond Education Eli Meyerhoff 2019-07-23 A bold call to deromanticize education and reframe universities as terrains of struggle between alternative modes of studying and world-making Higher education is at an impasse. Black Lives Matter and #MeToo show that racism and sexism remain pervasive on campus, while student and faculty movements fight to reverse increased tuition, student debt, corporatization, and adjunctification. Commentators typically frame these issues as crises for an otherwise optimal mode of intellectual and professional development. In *Beyond Education*, Eli Meyerhoff instead sees this impasse as inherent to universities, as sites of intersecting political struggles over resources for studying. Meyerhoff argues that the predominant mode of study, education, is only one among many alternatives and that it must be deromanticized in order to recognize it as a colonial-capitalist institution. He traces how key elements of education—the vertical trajectory of individualized development, its role in preparing people to participate in governance through a pedagogical mode of accounting, and dichotomous figures of educational waste (the “dropout”) and value (the “graduate”)—emerged from histories of struggles in opposition to alternative modes of study bound up with different modes of world-making. Through interviews with participants in contemporary university struggles and embedded research with an anarchist free university, *Beyond Education* paves new avenues for achieving the aims of an “alter-university” movement to put novel modes of study into practice. Taking inspiration from Black Lives Matter, Occupy Wall Street, and Indigenous resurgence projects, it charts a new course for movements within, against, and beyond the university as we know it.

American Exceptionalisms Sylvia Söderlind 2011-12-16 An incisive and wide ranging look at a powerful force and myth in American culture and history, *American Exceptionalisms* reveals the centuries-old persistence of the notion that the United States is an exceptional nation, in being both an example to the world and exempt from the rules of international law. Scholars from North America and Europe trace versions of the rhetoric of exceptionalism through a multitude of historical, cultural, and political phenomena, from John Winthrop's vision of the "cittie on a hill" and the Salem witch trials in the seventeenth century to The Blair Witch Project and Oprah Winfrey's "Child Predator Watch List" in the twenty-first century. The first set of essays focus on constitutive historical moments in the development of the myth, from early exploration narratives through political debates in the early republic to twentieth-century immigration debates. The latter essays address the role of exceptionalism in the "war on terror" and such cornerstones of modern popular culture such as

the horror stories of H.P. Lovecraft, the songs of Steve Earle, and the Oprah Winfrey show. Sylvia Söderlind is Associate Professor of English Language and Literature at Queen's University, Kingston, Ontario, Canada. She is the author of *Margin/Alias: Language and Colonization in Canadian and Québécois Fiction* (Toronto: University of Toronto Press, 1991) and articles on American, Canadian and Québécois fiction, "ghostmodernism" and translation, and the politics of metaphor published in, among others, *Canadian Review of Comparative Literature*, *Ariel*, *Essays in Canadian Writing*, *Voix et images*, *RS/SI*, *New Feminism Review* (Japan), *ARTES* (Sweden). James Taylor Carson is Professor of History and Associate Dean in the Faculty of Arts and Science at Queen's University, Kingston, Ontario, Canada. His scholarship focuses on the ethnohistory of native peoples in the American South, and he has published two books on the subject, *Searching for the Bright Path: The Mississippi Choctaws from Prehistory to Removal* (Lincoln: University of Nebraska Press, 1999) and *Making an Atlantic World: Circles, Paths, and Stories from the Colonial South* (Knoxville: University of Tennessee Press, 2007).

Raising Our Hands Jenna Arnold 2020-06-16 White women are one of the most influential demographics in America—we are the largest voting bloc, with purchasing power that exceeds anybody else's, and when we unify to demand change, we are a force to be reckoned with. Yet, so many of us sit idly on the sidelines, opting out of raising our hands to do, learn, and engage in ways that could make a difference. Why? White

American women are no monolith. Yet, as Women's March national organizer Jenna Arnold has learned over the past few years criss-crossing the US in conversations with white women about their identity and role in the country, we do possess common characteristics—ones that get in the way of us becoming more engaged as citizens. We're so focused on checking off our to-do lists, or so afraid of getting it wrong, or so busy trying to avoid conflict, that we are actively avoiding the urgent conversations we need to have. We are confused about how we got here and unsure how to do better. *Raising Our Hands* is the reckoning cry for white women. It asks us to step up and join the new frontlines of the fight against complacency—in our homes, in our behaviors, and in our own minds. Consider *Raising Our Hands* your starting place, your "Intro to Being a White Woman in Today's World" freshman-year class. In these pages, Jenna peels back the history that's been kept out of textbooks and the cultural norms that are holding us back, so we can finally start really listening to marginalized voices and doing our part to promote progress. The American white woman is a powerful force—an essential participant—to mobilize alongside the rest of humanity on behalf of the world, and we can no longer make excuses for why we don't have time or don't know enough.

[Ancient and Indigenous Wisdom Traditions in the Americas](#) Ehaab Abdou 2024-08-01 This book brings attention to the understudied and often overlooked question of how curricula and classroom practices might inadvertently reproduce exclusionary discourses and narratives that omit or negate particular cultures, histories, and wisdom traditions. With a focus on representations and classroom practices related especially to ancient and Indigenous wisdom traditions and cultures, it includes unique contributions from scholars studying these questions in various contexts. The book offers a range of important studies from various contexts across the Americas, including Canada, the various member nations of the Caribbean Community (CARICOM), Puerto Rico, and the United States. The various chapter contributions address and discuss nuances of

each of the contexts under study. The contributions also help highlight some key commonalities across these contexts, including how dominant discourses and various forces have historically shaped—and continue to shape and reproduce— such omissions, misrepresentations, and marginalization. In addition to seeking to reconcile with some of these ancient and Indigenous wisdom traditions and cultures, the book charts a path forward toward more holistic analytical frameworks as well as more inclusive and balanced representations and classroom practices in these aforementioned geographic contexts and beyond. It will appeal to scholars, researchers, undergraduate, and graduate students with interests in Indigenous education, curriculum studies, citizenship education, history of education, religion, and educational policy.
