**Study Guide and Workbook, an Interactive
Approach for Starr and McMillan's Human
Biology, Third Edition** Jane B. Taylor 1999

Asks the student to write all answers in this
study guide/workbook. This workbook is
interactive because it requires students to do
things instead of just read more material. All
questions are arranged by chapter modules so
students may skip unassigned material. Each
module in the study guide refers to the page
numbers of the corresponding module in the
text. There is a wide variety of questions:
multiple-choice questions; tables to be filled in;
art to be labeled; true/false questions requiring
students to write the correct answer if the
statement is false; thought-provoking conceptual
questions; boldfaced terms requiring a written
definition; list of objectives in fill-in-the-blank
format; and other types of questions.
