The Hanson Guide to the Internet & Internet Databases 2000

The Geography of Central Asia Igor Jelen
2021-03-01 This book provides a profound geographical description and analysis of Central Asia. The authors take a synthetic approach in a period of critical transformation in the post-soviet time. The monograph analyzes comprehensively the physical and human

geography as well as human-nature interactions of Central Asia with focus on Kazakhstan, Uzbekistan, Turkmenistan, Kyrgyzstan and Tajikistan. Natural processes are described at a systemic scale, focusing on ecological impacts and consequences and contemporary human adaptations and organization. It also discusses in which ways the human organizations try to apply solutions for their needs such as security, territorial management and resources renewability, material and functional needs, identity elaborations, culture and communication. The Geography of Central Asia appeals to scientists and students of regional geography and interested academics from other areas such as social, political, economic and environmental studies within the context of Central Asia. The book is also a very useful

resource for field trips into this area.

Electronic Commerce 2018 Efrain Turban
2017-10-12 This new Edition of Electronic Commerce is a complete update of the leading graduate level/advanced undergraduate level textbook on the subject. Electronic commerce (EC) describes the manner in which transactions take place over electronic networks, mostly the Internet. It is the process of electronically buying and selling goods, services, and information. Certain EC applications, such as buying and selling stocks and airline tickets online, are reaching maturity, some even exceeding non-Internet trades. However, EC is not just about buying and selling; it also is about electronically communicating, collaborating, and discovering information. It is about e-learning, e-

government, social networks, and much more. EC is having an impact on a significant portion of the world, affecting businesses, professions, trade, and of course, people. The most important developments in EC since 2014 are the continuous phenomenal growth of social networks, especially Facebook , LinkedIn and Instagram, and the trend toward conducting EC with mobile devices. Other major developments are the expansion of EC globally, especially in China where you can find the world's largest EC company. Much attention is lately being given to smart commerce and the use of AI-based analytics and big data to enhance the field. Finally, some emerging EC business models are changing industries (e.g., the shared economy models of Uber and Airbnb). The 2018 (9th) edition, brings forth the latest trends in e-commerce, including smart commerce, social commerce, social collaboration, shared economy, innovations, and mobility.

Finances in International Arbitration Sherlin Tung 2019-11-26 Finances in International Arbitration Liber Amicorum Patricia Shaughnessy Edited by Sherlin Tung, Fabricio Fortese & Crina Baltag Costs of arbitration has always been a main concern in international arbitration. It is a topic most often discussed and analyzed. In spite of the recent developments in thirdparty funding regulations as well as other mechanisms made available to users of arbitration to reduce costs, the topic remains a key focus for users of arbitration. As the founder of the world's leading international commercial arbitration Master's programme, Dr Patricia Shaughnessy is a huge advocate of communicating recent and important developments in international arbitration and has written and spoken extensively on such

matters. Over twenty-five renowned practitioners and academics worldwide, who have been influenced by Dr Shaughnessy, explore this much-debated topic on the occasion of her 65th birthday. The contributions in this dedication to Dr Shaughnessy's legacy look at issues such as the following: costs arising out of Third-Party Funding; costs of court proceedings versus arbitration proceedings; fee arrangements with legal counsel; costs of commercial versus investment arbitration; how to deal with in-house costs in international arbitration; impact of tribunal secretaries in international arbitration; cost sanctions in international arbitration; damages in international arbitration. The analysis and views offered by leading scholars and practitioners on current day issues arising out of costs of arbitration will offer readers a unique perspective on various aspects of the finances involved in arbitration. This book will provide insightful thoughts and practical guidance for

academics and practitioners in the field of international arbitration.
