Living Mirrors Jack Stephens 2003 Not far beneath the surface of the sea wait the world's last unexplored wild places. On the sun-drenched crests of tropical coral reefs and in the dim uncharted waters just below them live the most biologically productive and diverse communities on our planet. No ecosystem is more varied and beautiful. And none is in more danger of perishing in our lifetimes. Rushing to the aid of these robust-yet-fragile natural treasures are adventurous men and women eager to face the challenge of discovering, recording, and preserving these imperiled ecosystems and the interesting creatures that call them home. Living Mirrors: A Coral Reef Adventure introduces us to Howard and Michele Hall, the

husband-wife underwater cinematography team who have joined forces with biologists, conservationists and filmmakers to bring the rest of us the most intimate look at coral reefs and the lands, seas and peoples around them, we may ever get. Living Mirrors is the companion volume to MacGillivray Freeman Film's documentary feature Coral Reef Adventure, filmed exclusively for IMAX theatres and large format cinemas. A richly illustrated exploration of corals and the worlds they create, Living Mirrors reveals the secrets of the reef and reflects them above the waterline where we might appreciate the wider implications of a realm vital to the balance of the rest of our world and worthy of our efforts to preserve it now and for generations to come. Birnbaum's Disneyland Resort 2009 Birnbaum Guides 2008-09-30 This updated edition of Birnbaum's Disneyland Resort, the most respected and well-known

name in Disney guides, takes readers through Walt Disney's first theme park with ease and flair. Since our guide is the only guide that's official, this book includes the most accurate and current information on prices and attractions. And Birnbaum's Disneyland Resort is the most comprehensive guidebook, offering complete

information on the Magic Kingdom, Disney's California Adventure, and Downtown Disney, as well as details about Anaheim area attractions, things to do in Los Angeles, and special driving routes around Southern California. This is the only guide to Disneyland that readers need, entirely updated every year. got that, too. The nearest Hollywood club, holistic health practitioner, sports outing, or shopping destination—whatever you need—NFT puts it at your fingertips. The guide also includes: • A foldout highway map covering all of Los Angeles • More than 150 neighborhood and city maps • A guide to TV and movie studio locations • Listings for the best shopping destinations Everything from supermarkets, cafés, bars, and gas stations, to information on twenty-four-hour services, beaches, public transportation, and city events—NFT will help you find a boutique for an Oscars gown, and then show you how to get there.

The American City: What Works, What Doesn't

Alexander Garvin 2013-12-02
The definitive guide to urban planning and design-- completely updated and now in full color In the Third Edition of The American City: What Works, What Doesn't, award-winning city planner and renowned urban scholar Alexander Garvin examines more than 350 programs and projects that have been implemented nationwide in 150 cities and suburbs, evaluates their successes and failures, and offers relevant lessons

learned from them. Nearly all of the book's 650 illustrations are now in full color and consist almost entirely of photographs, maps, and diagrams produced especially for the Third Edition. Garvin discusses major urban initiatives that have emerged over the past two decades, such as Chicago's Millennium Park, Houston's Uptown Business District, and Metropolitan Denver's FasTracks multicounty rapid transit network. He reexamines the wide range of places and strategies covered in the previous edition, offering new analyses and insights. A new chapter on retrofitting the city for a modern commercial economy is included. This practical guide presents six key ingredients of project success--market, location, design, financing, time, and entrepreneurship--and explains how to combine these elements in a mutually reinforcing manner. Garvin demonstrates how the synthesis of individual and private-sector efforts, community-level action, and

broad-based government policy can--and has--achieved urban and suburban regeneration. **COVERAGE INCLUDES:** A realistic approach to city and suburban planning Ingredients of success--market, location, design, financing, time, and entrepreneurship Parks, playgrounds, and open space Retail shopping Palaces for the people--libraries, stadiums, museums, and other public facilities Retrofitting the city for a modern commercial economy The life and death of the City of Tomorrow--implications of national urban redevelopment programs Downtown management Increasing the housing supply Reducing housing costs Housing rehabilitation Clearing the slums Revitalizing neighborhoods Residential suburbs New-towns-in-town New-towns-in-the-country Land use regulation Historic preservation Comprehensive planning Los Angeles Andrea Schulte-Peevers 1999 Provides details on how to discover the natural side of this sprawling

metropolis - the arboretums and parks, murals and monuments; in-depth coverage of the bar scene from martini lounges to underground hangouts to the hottest swing and salsa joints; recommendations on the best places to see and be seen, eat and shop.
