Serena Bureau 2003-08-29 This new edition of
the Care of the Critically Ill Surgical Patient, a
manual for the 'CCrISP'TM course of The Royal
College of Surgeons of England, has been fully
revised and updated. The book describes a
practical system for the assessment and
management of the surgical patient, whether on
the ward, following emergency admission or
operation, in the HDU or in the ICU. Surgeons in
training must quickly develop their own skills to
enable them to look after these patients
following an emergency admission, major
surgery or unexpected complication. They must
also be able to function effectively with
colleagues from related disciplines, particularly
anaesthesia and intensive care. Critical Care is
now an accepted part of surgical practice -
within the last few years it has become part of

postgraduate exams and more importantly, is part of everyday practice of the majority of surgeons. Unlike more formal textbooks, this manual focuses on 'what to do next'; it is therefore particularly suitable for trainee surgeons engaged in acute surgical practice, as well as those in preparation for postgraduate examinations.

Care of the Critically Ill Surgical Patient, 3rd Edition Ian Loftus 2010-09-24 This new edition of the Care of the Critically Ill Surgical Patient (CCrISP) course manual has been fully updated and revised by a multidisciplinary team of surgeons and anaesthetists. It remains true to the original aims of the course: to encourage trainees to take responsibility for critically ill patients, to predict and prevent problems that patients might encounter while in hospital, to function well within the surgical team and communicate effectively with colleagues from other disciplines. CCrISP is a valuable adjunct to traditional ward training and continues to

provide young surgeons with the structure and confidence they require to safely and effectively care for their patients on the ward and in theatre. Designed to develop skills that are necessary in the management of critically ill patients, CCrISP integrates knowledge, practical skills, communication and leadership.
