2023-09-29 Health and social care systems

around the world are facing radical

organizational, methodological and technological

paradigm changes to meet the requirements for

improving quality and safety of care as well as

efficiency and efficacy of care processes. In this

they're trying to manage the challenges of

ongoing demographic changes towards aging,

multi-diseased societies, development of human

resources, a health and social services

consumerism, medical and biomedical progress,

and exploding costs for health-related R&D as

well as health services delivery. Furthermore,

they intend to achieve sustainability of global

health systems by transforming them towards intelligent, adaptive and proactive systems focusing on health and wellness with optimized quality and safety outcomes.

**Teaching Climate Change in Primary**

**Schools** Anne M. Dolan 2021-07-26 This

important and timely book provides an overview

of climate change and highlights the importance

of including climate change education in primary

schools. It emphasises the importance of cross-

curricular pedagogical approaches with a focus

on climate justice, providing in-depth assistance

for teaching children aged 3-13 years. Informed

by up to date research, the book helps teachers

to remain faithful to climate change science

whilst not overwhelming children. Accompanied

by online resources, this book includes practical

and easy to follow ideas and lesson plans that

will help teachers to include climate change education in their classrooms in a holistic, cross-curricular manner. Specific chapters address the following topics: • Inter-disciplinary approaches to climate change • Early childhood education • Pedagogies of hope • The importance of reflective practice • Ideas for including climate change education in curricular areas such as literacy, geography, science, history and the arts

Designed to promote climate change education in primary schools, this resource will help primary teachers, student teachers, geography specialists and all those interested in climate change education develop their own conceptual knowledge and that of the children in their class.
