Readers' Guide to Periodical Literature Anna Lorraine Guthrie 1919

*Mastery of Surgery* Josef E. Fischer 2006-12-18 This authoritative two-volume reference represents the core procedural knowledge taught in most surgical residency programs. This edition has new procedures in bariatric surgery, hernia surgery, and vascular surgery, and includes a large number of international contributors. Editorial comments at the end of each chapter provide additional insight.

*Pediatric Critical Care Study Guide* Steven E. Lucking 2012-04-12 This is the first comprehensive study guide covering all aspects of pediatric critical care medicine. It fills a void that exists in learning resources currently available to pediatric critical care practitioners. The major textbooks are excellent references, but do not allow concise reading on specific topics and are not intended to act as both text and study guide.

There are also several handbooks available, but these are usually written for general pediatric residents and lack the advanced physiology and pathophysiology required for the higher level pediatric critical care practitioner
