Child Protection in England, 1960–2000 Jennifer Crane 2018-09-25 This book is open access under a CC BY 4.0 license. This open access book explores how children, parents, and survivors reshaped the politics of child protection in late twentieth-century England. Activism by these groups, often manifested in small voluntary organisations, drew upon and constructed an expertise grounded in experience and emotion that supported, challenged, and subverted medical, social work, legal, and political authority. New forms of experiential and emotional expertise were manifested in politics – through consultation, voting, and lobbying – but also in the reshaping of everyday life, and in new partnerships formed between voluntary spokespeople and media. While becoming subjects of, and agents in, child protection politics over the late twentieth century, children, parents, and survivors also faced barriers to enacting change, and the book traces how long-standing structural hierarchies, particularly around gender and age, mediated and inhibited the realisation of experiential and emotional expertise.

The Columbia Guide to Social Work Writing Warren Green 2012-07-17 Social work practitioners write for a variety of publications, and they are expected to show fluency in a number of related fields. Whether the target is a course instructor, scholarly journal, fellowship organization, or general news outlet, social workers must be clear, persuasive, and comprehensive in their writing, especially on provocative subjects. This first-of-its-kind guide features top scholars and educators providing a much-needed introduction to social work writing and scholarship. Foregrounding the process of social work writing, the coeditors particularly emphasize how to think about and approach one's subject in a productive manner. The guide begins with an overview of social work writing from the 1880s to the present, and then follows with ideal strategies for academic paper writing, social work journal writing, and social work research writing. A section on applied professional writing addresses student composition in field education, writing for and about clinical practice, the effective communication of policy information to diverse audiences, program and proposal development, advocacy, and administrative writing. The concluding section focuses on specific fields of practice, including writing on child and family welfare, contemporary social issues, aging, and intervention in global contexts. Grounding their essays in systematic observations, induction and deduction, and a wealth of real-world examples, the contributors describe the conceptualization, development, and presentation of social work writing in ways that better secure its power and relevance.
