*Green Cleaning Success. A Business Plan for TopGreen's Sustainable Growth and Financial Triumph in the Pandemic Era* Bandar Hezam 2023-11-29 Project Report from the year 2022 in the subject Business economics - Company formation, Business Plans, grade: A, National University of Malaysia (Cyberjaya), course: MBA, language: English, abstract: The assignment within this paper is based on developing a business plan for a new company whereby adequate information is reviewed for further analysis on the organization's financial issues and the implementation of strategic decision-making in terms of analyzing the issues and coming up with financial projections by also looking into the strengths, weaknesses, opportunities, and threats. "TopGreen" is a green cleaning company still at its initial launching stage where the four founding partners grouped together based on their experiences, skills, and the passion for green services. Certainly, they could have evolved into different fields other than janitorial services. However, after careful consideration of all the ideas they could brainstorm and considering the importance of sanitization and hygiene pertaining from the Covid-19 pandemic, Green cleaning topped their list based on how motivated they were to expand their knowledge of green concept into realizing an idea which would not only help them financially but also be contributing to saving the planet. The business plan comprises listing the company's products and services as well as the marketing plan in place set by the team which consists of the chief executive officer, the chief operations officer, the chief finance officer, and the chief marketing officer. It is to be noted that TopGreen also has an employee headcount of around 10 members. The business plan also comprises a thorough analysis whereby the strengths, weaknesses, opportunities, and threats for and against the company have been evaluated, and financial challenges have also been reviewed with possible solutions and implementations. The latter has also been backed by financial

projections such as Income Statement, Balance sheets and Cash Flows such that it can be further demonstrated as to how TopGreen plans to strive in the competitive market.

How to Start a Cleaning Business Maxwell Rotheray Many people don't like to be called cleaners, but then many people don't get paid to scrub floors and wash carpets and clean windows. The commercial cleaning business can be profitable, flexible, and can grow quickly, making it a great home business preference, if you key into the right path. Professional Cleaning Business has the tendency of lower up-front costs than other businesses, and this is one of the few businesses you can begin working on immediately with little capital investment and

start making profit. Formal training or certifications are not necessarily required for typical home and office cleaning. For those that have a high level of work ethic and customer demeanor, the cleaning business can be a lucrative and rewarding experience. The following are the reasons why you should try your hand in commercial cleaning business;

- i. **Constant Market:** Businesses need their offices cleaned whether in a good economy or bad one if it wants to keep a professional and clean environment. Commercial cleaning maintains a steady market with steady demand.
- ii. **Simple Service Offering:** Whether an entrepreneur decides to tap from an existing franchise model or build it from the scratch, what businesses need is fairly similar across the board such as emptying wastebaskets, cleaning bathrooms, dusting tables and chairs, washing toilets, and the typical sweeping and mopping.
- iii. **Business Is Stable:** Commercial cleaning is a continuing service business. This means that companies and other businesses need the service regularly, which brings in steady business for you as well as a secure, regular income.
- iv. **Entry-Level Workforce:** The good thing about it is that your employees don't need formal education or training, so you don't have to spend money on expensive training or recruiting costs.
- v. **Overhead is low:** Outside of cleaning supplies and other essentials, someone interested in a commercial cleaning franchise doesn't have to commit a lot of cash to buy cleaning equipment such as vehicles or inventory. This book is a complete guide for starting a cleaning business with unpopular strategies for maximizing profit with minimum cost. It also provides tips on determining the right location for a successful and flourishing business. More facts and strategies are explained in this book to help you start your own commercial cleaning business without sweat!
