A Parent's Survival Guide to College and Financial Aid 2nd Edition Jim Trimboli 2016-02-15 A practical and quick read for all parents and their college-bound children, this little book with a giant return covers the latest changes in financial aid, gets families started on the right path and gives parents invaluable advice and peace of mind as they help their children navigate those first precarious steps of going to college. A "standout resource that gets to the heart of what students and their families need to know when facing two of life's most important decisions: choosing a college and financing a college education. This book should be required reading for all families prior to beginning the college decision and financial aid process", according to Patricia Thompson, Associate Vice Chancellor of Student Financial Aid Services, SUNY System Administration, New York. "A Parent's Survival Guide to College and Financial Aid" walks the reader quickly through the most common and expensive mistakes students and parents can make, easy tips to help them reduce college costs, and common sense language to help parents guide their children through the process. Parents and students who follow the easy tips and heed the simple advice found in this very affordable little book will literally be able to save \$1000's by avoiding the many pitfalls that can keep the student from completing their college education. Off to College Roger H. Martin 2015-08-04 For many parents, sending their child off to college can be a disconcerting leap. After years spent helping with homework, attending parent-teacher conferences, and catching up after school, college life represents a world of unknowns. What really happens during that transitional first year of college? And what can parents do to strike the right balance between providing support and fostering independence? With *Off to College*, Roger H. Martin helps parents understand this important period of transition by providing the perfect tour of the first year on today's campus. Martin, a twenty-year college president and former Harvard dean, spent a year visiting five very different colleges and universities across the United States—public and private, large and small, elite and non-elite—to get an insider's view of modern college life. He observes an advising session as a student sorts out her schedule, unravels the mysteries of roommate assignments with a residence life director, and patrols campus with a safety officer on a rowdy Saturday night. He gets pointers in freshman English and tips on athletics and physical fitness from coaches. He talks with financial aid officers and health service providers. And he listens to the voices of the first-year students themselves. Martin packs *Off to College* with the insights and advice he gained and bolsters them with data from a wide variety of sources to deliver a unique and personal view of the current student experience. The first year is not just the beginning of a student's college education but also the first big step in becoming an adult. *Off to College* will help parents understand what to expect whether they're new to the college experience or reconciling modern campus life with memories of their own college days.

The College Conversation Eric J. Furda 2021-09-21 From an Ivy League dean and a college admissions expert, a guide to help parents support their children as they navigate their way to college *The College Conversation* is a comprehensive resource for mapping the path through the college application process that provides practical advice and reassurance to keep both anxious parents and confused children sane and grounded. Rather than adding to the existing canon of "How to Get In" college guides or rankings, Eric Furda and Jacques Steinberg provide

a step-by-step approach to having the tough conversations on this topic with less stress and more success. The book is organized around key discussions and themes that trace the chronological arc of admissions and financial aid--beginning before the assembly of a list of potential colleges and continuing through the receipt of decisions--with a final section that includes advice on the first year of college. The topics include preliminary conversations about the search, and specifically how parents can think about their children's interests and what kind of college would best suit them; choosing a college (based on its curriculum, culture, and community); writing the most effective essays; assessing acceptances, including considerations of finances and aid; and making the transition from high school to college life. The College Conversation will provide parents, students, and counselors with the credible, level-headed information often missing in this process, as well as a much-needed dash of perspective borne of experience.

The Four College Myths: a Cautionary Guide for Parents of First-Year Students Viola Sebastian-Jones 2019-06-24

This guide is for parents whose students are beginning the college search process or who are applying to colleges and universities. It is also for parents whose students are in their first year of college as well as those who have completed it. Drawing on three decades of experience teaching and advising college students as well as on extensive senior leadership expertise at elite research universities and small colleges, an Academic Dean provides parents with an unusually candid and realistic examination of the four dominant myths about college and the first-year experience that negatively affect students academically, personally, and socially. With wisdom and compassion, this guide provides parents with straightforward and distilled analyses of these four pivotal myths, which disproportionately affect students' expectations of their first year in college: the myth of an ideal or perfect school; the myth that college is about abundance of choice; the myth that first-year students adjust to college through First-Year Experience Programs; and the myth that

college is freedom. Viola Sebastian-Jones expertly addresses why higher education, as an industry, perpetuates these myths and provides parents (and students) with seven clear solutions for managing these myths during campus visits, in the transition to college, during the enrollment and orientation processes, and throughout the first-year experience. In addition to helping parents identify and understand these pivotal myths and their disadvantageous consequences, this guide gives parents important strategies for getting the information they need from institutions about the first-year experience on their campuses. Through her matter-of-fact approach to higher education, Viola Sebastian-Jones helps parents and students create the educational experience they deserve.
