provisions for the design and construction of
new buildings in Canada. It also applies to the
alteration, change of use, and demolition of
existing buildings. The NBC is available in two

volumes and comprises three divisions: A, B and
C. Division A includes the compliance options,
the objectives, and the functional statements.
Division B contains the provisions, referred to as
acceptable solutions, relating to such issues as
fire protection, occupant safety and accessibility;
structural design; environmental separation;
heating, ventilating, and air-conditioning;
plumbing services; safety measures at
construction and demolition sites; and housing
and small buildings. Division C contains
administrative provisions. Volume 1 contains
Divisions A and C along with the attribution
tables of Division B. Volume 2 contains Division
B, appendices, and index.

The Handbook of Biomass Combustion and Co-firing Sjaak van Loo 2012-05-16 This unique handbook presents both the theory and application of biomass combustion and co-firing, from basic principles to industrial combustion and environmental impact, in a clear and comprehensive manner. It offers a solid grounding on biomass combustion, and advice on improving combustion systems. Written by leading international academics and industrial experts, and prepared under the auspices of the IEA Bioenergy Implementing Agreement, the handbook is an essential resource for anyone interested in biomass combustion and co-firing technologies varying from domestic woodstoves to utility-scale power generation. The book covers subjects including biomass fuel pre-treatment and logistics, modelling the combustion process and ash-related issues, as well as featuring an overview of the current

R&D needs regarding biomass combustion.
