Darwin Labarthe 2011

*Epidemiology and Prevention of Cardiovascular Disease: A Global Challenge*, Second Edition provides an in-depth examination of epidemiologic research and prevention measures for the full range of cardiovascular diseases (CVD).

This authoritative text on the world's leading causes of death describes in detail the nature of atherosclerotic and hypertensive diseases--

including their determinants, prevention and control, as well as policies for intervention in community and clinical settings. This Second Edition is fully updated, more extensively referenced and expanded to include new information about the public health dimensions of CVD prevention, exploring the basis of public health decisions and the process by which decision-making bodies develop guidelines and recommendations.

*Epidemiology and Prevention of*

Cardiovascular Diseases: A Global Challenge, Second Edition is the essential text for any student or practitioner concerned with global cardiovascular health.

*Manual of Environmental Microbiology* Cindy H. Nakatsu 2020-08-11 The single most comprehensive resource for environmental microbiology. Environmental microbiology, the study of the roles that microbes play in all planetary environments, is one of the most important areas of scientific research. The *Manual of Environmental Microbiology, Fourth Edition*, provides comprehensive coverage of this critical and growing field. Thoroughly updated and revised, the *Manual* is the definitive reference for information on microbes in air, water, and soil and their impact on human health and welfare. Written in accessible,

clear prose, the manual covers four broad areas: general methodologies, environmental public health microbiology, microbial ecology, and biodegradation and biotransformation. This wealth of information is divided into 18 sections each containing chapters written by acknowledged topical experts from the international community. Specifically, this new edition of the *Manual* Contains completely new sections covering microbial risk assessment, quality control, and microbial source tracking. Incorporates a summary of the latest methodologies used to study microorganisms in various environments. Synthesizes the latest information on the assessment of microbial presence and microbial activity in natural and artificial environments. The *Manual of Environmental Microbiology* is an essential reference for environmental microbiologists, microbial ecologists, and environmental engineers, as well as those interested in

human diseases, water and wastewater treatment, and biotechnology.

**Cultural Heritage** Michelle L.

Stefano 2012 Wide-ranging essays on intangible cultural heritage, with a focus on its negotiation, its value, and how to protect it. Awareness of the significance of intangible cultural heritage (ICH) has recently grown, due to the promotional efforts of UNESCO and its Convention for the Safeguarding of the Intangible Cultural Heritage (2003).

However, the increased recognition of intangible heritage has brought to light its undervalued status within the museum and heritage sector, and raised questions about safeguarding efforts, ownership, protective legal frameworks, authenticity and how global initiatives can be implemented at a local level, where most ICH is located. This book provides a variety of international perspectives on

these issues, exploring how holistic and integrated approaches to safeguarding ICH offer an opportunity to move beyond the rhetoric of UNESCO; in particular, the authors demonstrate that the alternative methods and attitudes that frequently exist at a local level can be the most effective way of safeguarding ICH. Perspectives are presented both from "established voices", of scholars and practitioners, and from "new voices", those of indigenous and local communities, where intangible heritage lives. It will be an important resource for students of museum and heritage studies, anthropology, folk studies, the performing arts, intellectual property law and politics. Michelle Stefano is Folklorist-in-Residence, University of Maryland BaltimoreCounty; Peter Davis is Professor of Museology, International Centre for Cultural and Heritage Studies, Newcastle University; Gerard Corsane is Senior Lecturer in Heritage, Museum and Galley

**Disease in Infants, Children, and Adolescents** Hugh D.

Allen 2008 Established since 1968 as a classic pediatric cardiology text, this two-volume work is now in its Seventh Edition. Leading international experts describe state-of-the-art diagnostic and interventional techniques for young patients with congenital and acquired heart diseases and for adult survivors of congenital heart disease. This edition's section on pediatric cardiac intensive care has new chapters on interventricular and cardiopulmonary interactions and on the extreme premature, premature, and normal newborn. A section From the Gene to the Neonate provides in-depth coverage of genetics, fetal echocardiography, and fetal cardiology. An extensive section focuses on adult survivors of congenital heart disease. A companion Website will include the fully searchable online text and a full-color image bank.

**Certified Health Data Analyst (CDHA) Reference**

**Guide** Susan White 2010-01-01 (Publisher) This book provides readings to help prepare candidates for the CDHA exam. The readings are organized into three parts representing the three domains of the CDHA credential. Within each domain, there are a varying number of tasks. Each article may contain material that covers multiple tasks. The primary tasks have been identified to help candidates organize their exam review. A glossary of health information management (HIM)-related terms and an alphabetical listing of references can be found in the back of this book.

**Certified Health Data Analyst (CDHA) Exam**

**Preparation** Susan White 2015 This publication is designed to help the reader prepare for the AHIMA Certified Health Data Analyst (CHDA) certification exam. There are two practice exams as well as fifty practice questions for each of the three domains included in the exam - Data Management -- Data Analytics -- Data Reporting.
