The Book of U.S. Postal Exams
Veltisezar B. Bautista 1997 A guide to taking U.S. postal exams, including information about the different positions in the field, and sample exams for 47 job categories.

Stats with Cats Charles Kufs 2011 When you took statistics in school, your instructor gave you specially prepared datasets, told you what analyses to perform, and checked your work to see if it was correct. Once you left the class, though, you were on your own. Did you know how to create and prepare a dataset for analysis? Did you know how

to select and generate appropriate graphics and statistics? Did you wonder why you were forced to take the class and when you would ever use what you learned? That's where *Stats with Cats* can help you out. The book will show you: How to decide what you should put in your dataset and how to arrange the data. How to decide what graphs and statistics to produce for your data. How you can create a statistical model to answer your data analysis questions. The book also provides enough feline support to minimize any stress you may experience.

Charles Kufs has been crunching numbers for over thirty years, first as a hydrogeologist, and since the 1990s as a statistician. He is certified as a Six Sigma Green Belt by the American Society for Quality. He currently works as a statistician for the federal government and he is here to help you.

The Practice of Market and Social Research Yvonne

McGivern 2003 The Practice of Market and Social Research is a comprehensive account of the techniques and the day-to-day tasks of the researcher. Easy to read and understand, this book covers not only research methods and techniques, such as sampling and questionnaire design, but also the practical tasks involved in running a research project. It guides the user through the preparation of the brief, writing of the proposal, managing of the research project, preparation of the report and finally the presentation and the evaluation of the findings. The Practice of Market and Social Research has been written especially for the MRS Advanced Certificate in Market and Social Research

Practice. It covers the course syllabus in full and provides examples of both market and social research.
