Handbook of the Media in Asia Shelton A Gunaratne 2000-07-27 This volume provides a fresh look at the media in Asia. It complements the work of the Euromedia

Research Group on the media in Western Europe, and supplements with updated information earlier works on the media in Asia and its sub-regions. While providing a predominantly Asian interpretation of Asian media, the handbook is not in disharmony with Western interpretation. The Handbook draws together contributions from over thirty experts, which have been placed within the customary division of Asia into South, Southeast, and East.
