What Good and Struggling 5th Grade Readers Do when Reading Expository Text for a Specific Purpose Janet Sue Tilstra 2007
25 Complex Text Passages to Meet the Common Core: Literature and Informational Texts, Grade 6 Martin Lee 2014 With the rigorous reading standards called for in the Common Core State Standards, teachers need easy access to reading passages at an increasing level of complexity so students will have opportunities to read closely and stretch their skills as the school year progresses. This collection of passages offers just that. Each of the 25 passages comes with text-dependent comprehension questions, including open-ended questions that require students to use higher-order thinking skills when writing their

responses. The lessons include teaching tips that target the challenges students will encounter in the passage and provide text-complexity information-- quantitative (Lexile level), qualitative, and reader and task considerations-- to help teachers meet the needs of their class. For use with Grade 6.

Nonfiction Reading Comprehension for the Common Core Grd 6 Heather Wolpert-Gawron 2014-02-13 Focusing on the analysis component in the Common Core scheme of reading comprehension, students are presented with 18 nonfiction passages that cover science, history, biographies, and informational text. After reading a passage, students are asked different

levels of multiple choice questions, helping students recognize that different types of questions require different levels of effort and thinking. They are also asked to write questions of their own and to answer essay questions.

Parent's Guide to the Common Core: 6th Grade
Kaplan Test Prep 2014-07-01 Helping Your Child

Succeed in Sixth Grade: A Parent's Guide to the Common Core Schools across America are rolling out new, more rigorous curricula in order to meet the demands created by a new set of English and Mathematics standards - known nationally as the Common Core State Learning Standards. You can expect to see a number of changes in your child's sixth grade class. In English, students will now read more Informational Texts. This type of passage provides facts and often deals with current events, science, and social studies. In addition, questions posed about these readings will ask students to find evidence and use it to formulate an argument. In order to master new Literacy standards, students will need a larger and stronger vocabulary to allow them to both tackle complex readings and write acceptable arguments. In Mathematics, students will spend more time developing their understanding of specific and important math concepts. Students will be expected to both demonstrate

understanding of each topic and apply their mathematical skills to real-world situations. As a parent, it is important not only to understand the new standards, but also to have the tools to help your child do his or her best in school. This book is designed to provide you with the guidance and resources to support classroom learning and help your child succeed. It includes: An annotated review of the standards highlighting what your child should master during third grade 20 Important lessons that you can do - together with your child - to support them as they progress through the school year A Vocabulary section designed to make sure your child masters the most important academic words 200+ practice questions to improve your child's skills Diagnostic quiz and 20+ mini-quizzes to check for understanding
