Practicum and Internship Judith Scott 2013-07-04 Completely revised and updated, the fourth edition of *Practicum and Internship* carries on the tradition of the previous editions as a popular and highly useful textbook and resource guide. It continues to be a comprehensive resource for students and their supervisors throughout the counseling and psychotherapy process, providing thorough coverage of both the theoretical and practical aspects of the practicum and internship process. This text guides students through the important pre-professional training experiences, from the selection of an appropriate practicum site to the final evaluation of the internship. Organizing the content into four sections for clarity and ease of use, the authors discuss all the relevant information regarding the practicum experience, preparation for the internship, the internship experience and evaluation, and important ethical and legal considerations. New in this edition are a listing and description of the various counseling theories and techniques; a section on crisis intervention and response; detailed guidelines for school mental health consultation; and forms for evaluating performance, cognitive, and consulting skills. Forms are provided at the end of the book for the student's use in site selection, assessment, client treatment, and performance feedback and evaluation. These forms are also included in electronic format on an accompanying CD to allow students to modify and reuse them.

Practicum and Internship Christin M. Jungers 2014-08-27 Completely revised and updated, the fifth edition of *Practicum and Internship* is an eminently practical resource that provides students and supervisors with thorough coverage of the theoretical and practical aspects of the practicum and internship process. New in this edition are: an accompanying website with downloadable, customizable forms, contracts, and a thoughtful discussion of the DSM-5 and HIPAA guidelines and the most recent CACREP standards expanded analysis of the use of technology and social media in counseling expanded discussions of ethical-decision making and ethical guidelines for informed consent and for supervision contracts in individual settings new and updated materials on case conceptualization, assessment, goal setting and treatment planning new materials reviewing third-wave counseling theories and practices, including MBSR, MBCT, ACT, and DBT detailed presentation of a skill-based model for counseling training and self-assessment questionnaires and guided-reflection exercises for application and orientation to the model.

Designing and Managing Programs Peter M. Kettner 2016-01-19 The Fifth Edition of the classic *Designing and Managing Programs* for human services helps readers grasp the meaning and significance of measuring performance and evaluating outcomes. The authors, all leaders in the field, incorporate the principles of effectiveness-based planning as they address the steps of designing, implementing, and evaluating a human services program at the local agency level. Meaningful examples at every stage of the process—from problem analysis and needs assessment to evaluating effectiveness and calculating costs—enhance reader understanding of how concepts are implemented in the real world.

Counselling Skills Meena Hariharan 2024-03-13 The book professionalises counselling through the scientific application of appropriate knowledge and skills at various stages of the counselling process. With the aim of equipping readers with fundamental and advanced counselling skills, this book: Examines a range of key skills

from various theories and models of counselling to enable students and professionals to understand the underlying techniques which need to be applied from the time the client approaches the counsellor until the conclusion of the counselling process. Sheds light on the complex psychological state of clients to discuss training for a holistic assessment in terms of emotions, cognition, motivation, and behaviour. Presents extensive materials that train the students in skills to provide emotional relief to the client, to help the client change from self-defeating negative thoughts to promising positive thinking, enhancing motivation and self-confidence to initiate action. Integrates discussions on case studies, live as well as hypothetical examples, traditional and contemporary theories on counselling with the art of communication. An invaluable guidebook on developing counselling skills, this volume will be of immense interest to students, researchers, teachers, professionals, and practitioners of psychology, behavioural sciences, mental health, counselling, and education.
