The Last of NASA's Original Pilot Astronauts David J. Shayler 2017-06-19 Resulting from the authors' deep research into these two pre-Shuttle astronaut groups, many intriguing and untold stories behind the selection process are revealed in the book. The often extraordinary backgrounds and personal ambitions of these skilled pilots, chosen to continue NASA's exploration and knowledge of the space frontier, are also examined. In April 1966 NASA selected 19 pilot astronauts whose training was specifically targeted to the Apollo lunar landing missions and the Earth-orbiting Skylab space station. Three years later, following the sudden cancellation of the USAF's highly classified Manned Orbiting Laboratory (MOL) project, seven military astronauts were also co-opted into NASA's space program. This book represents the final chapter by the authors in the story of American astronaut selections prior to the era of the Space Shuttle. Through personal interviews and original NASA documentation, readers will also gain a true insight into a remarkable age of space travel as it unfolded in the late 1960s, and the men who flew those historic missions.

Rootes Cars of the 1950s, 1960s & 1970s: Hillman, Humber, Singer, Sunbeam & Talbot David Rowe 2021-10-05 The Rootes Group, although only achieving a 10-12 per cent market share, were the sixth largest British car manufacturer: more importantly, during the 1950s, more than half the cars they produced were exported. With every model produced from 1950 onwards featured in full colour and with detailed information - including colour schemes, optional equipment, technical specifications, plus other manufacturers' cars built using Rootes components - this is the ultimate book for all Hillman, Humber, Singer and Sunbeam enthusiasts. Cars produced by Chrysler/Talbot and Peugeot after their acquisition of the Rootes Group are also included. This book includes hundreds of original photographs, taken by the author at many car shows over a number of years, and provides a unique pictorial history of Rootes-manufactured cars.

Lotus Europa: Colin Chapman's mid-engined masterpiece Matthew Vale 2022-04-14 The Lotus Europa was Colin Chapman and Lotus's first mid-engined road car, and was produced from 1966 through to 1975. Originally designed to slot into the Lotus range below the Elan as a low cost replacement for the Lotus 7, the Europa eventually sat alongside the Elan and Plus 2 as a comparable sports car in its own right. Starting with the design philosophy behind the development of the Europa, this book provides detailed technical descriptions of all the major versions of the model, starting with the Renault-powered Series 1 through to the Lotus Twin Cam powered Special. It looks at the cars on the road, and the racing Type 47 derived from the road cars which competed in the small capacity Group 6 class, as well as featuring in historic racing today. With owners' impressions and interviews with ex-Lotus employees, the book provides a valuable insight into owning, running, and racing these iconic cars.

Runways & Racers Terry O'Neil 2022-02-07 Runways and Racers concentrates on the short transitional period, 1952-1954, for sports car racing in America following the ban on public road racing in many of the States. The ban left the rapidly expanding Sports Car Club of America with a problem: where to hold races. At precisely the same time, Curtis LeMay, head of Strategic Air Command, was having problems obtaining funds from Congress to improve conditions on the many air bases located around the country. The solution was a marriage of convenience, whereby the SCCA was allowed access to active SAC air bases to hold its race programmes. In return, the SAC base would receive the net profits from the event, which would be put into the Airmen's Living Improvement Fund. As a result of some initial financial success for the SAC bases, the scheme was also adopted by non-SAC bases together with regional clubs, with the same agreement in place. Complaints from airmen alerted Congressman Errett Scrivner to potential irregularities,

and he ordered an audit to be conducted to ascertain precisely what it was costing the air bases to host the races. His findings led to the cessation of the races, ordered by Congress. The product of a long period of extensive research by the author, this book gives a fascinating insight into this two-year period, complemented by over 150 period pictures, many previously unpublished.

British Army of the Rhine Paul Chrystal 2018-09-30 The nervous geopolitical tension between East and West, the Cold War, emerged before the end of the Second World War and lasted until 1991 with the collapse of the Soviet Union. The British Army of the Rhine was born in 1945 out of the British Liberation Army at the close of the war as the military government of the British zone of occupied Germany. As the Soviet threat increased, so BAOR became less of an occupational army and assumed the role of defender of Western Europe, and as a major contributor to NATO after 1949. This book traces and examines the changing role of BAOR from 1945 to its demise in the 1993 Options for Change defence cuts. It looks at the part it played in the defence of West Germany, its effectiveness as a Cold War deterrent, the garrisons and capabilities, logistics and infrastructure, its arms and armour, the nuclear option and the lives of the thousands of families living on the front line.

N.A.R.T. Terry O'Neil 2020-01-31 Most people with an interest in motor sport will be familiar with the acronym N.A.R.T., yet few people profess to know too much about the North American Racing Team. Starting in the the second half of the 1950s, NART existed for three decades, during which it experienced successes on the tracks of America and Europe. It also suffered financial difficulties, and arguments with track organisers. This book explains what NART was, how it was formed, and what it achieved over three decades of competition. It wasn't just sports cars that were entered into races, NART entered Formula One cars and Formula Junior cars as well. Never as financially stable as his rival team owners, Chinetti did deals with Ferrari to purchase the latest specification sports cars at the end of a season, in order to attract the best drivers to drive for NART. It was also an opportunity to lease the cars on a race-by-race basis, an arrangement that appealed to some of Chinetti's clientele. Whilst success on the track was significant, problems were never far away. Working on the cars with a limited number of staff, and not receiving spares from Ferrari on time, NART always appeared to be in a state of crisis. No matter ... despite the difficulties, the formula worked well for Luigi Chinetti, and the acronym N.A.R.T. has rightly become legendary.

Vincent Motorcycles Philippe Guyony 2021-10-28 Very few motorcycles have carved a mark in history like the Vincent V-twin, from its arrival in 1946 and up to the present day. On the road, in club racing, in drag races, or competing for land speed records, it dominated the motorcycle world, leading to the famous catchphrase coined by the factory: "The World's Fastest Standard Motorcycle." It was a FACT - NOT a slogan. Images such as that of Rollie Free, in swimming trunks, laying flat on his works-modified Black Shadow and taking the American motorcycle land speed record at Bonneville in 1948, have now passed into posterity. In fact, the big Vincent was so ahead of its time, that it continued to compete successfully - almost arrogantly - in racing until the mid-1970s, against modern bikes. No other motorcycle in the world can claim this kind of achievement. Following the premature ending of Vincent production, Fritz Egli's 1967 Egli-Vincent was the first chassis completely redesigned for a Vincent in 21 years. Egli's machine inspired numerous builders for several generations and this book traces, holistically, the story of all those motorcycles in the broad context of the classic and modern history of the Vincent. Understand how the flame of passion still burns brightly today.

Lamborghini Murciélago Thillainathan Pathmanathan 2021-10-22 The wedge-shaped V12 Lamborghini flagships were always spectacular - in shape, sound and performance. The Murciélago was an evolution of the Countach and the Diablo, and was as iconic in its time as its illustrious predecessors were in theirs. This book examines the Murciélago in

detail, while casting a look back through Lamborghini's troubled history, to understand how the Murcielago came into being. Ferruccio Lamborghini, Patrick Minram, Megatech, Chrysler, and finally VW-Audi, all played their part in the birth of this modern classic. The book touches on the people and organisations involved in the production of this iconic car, before examining each of the model variants, and discusses the joys and tribulations of ownership.

Two Summers Robert Ackerson 2022-05-11 Two Summers offers a fresh, revealing and highly personal look at the culture of Grand Prix racing as it was during the 1954 and 1955 championships, with individual portraits of the twelve races in which the Mercedes-Benz W 196 R participated. This book explores the Mercedes-Benz W 196 R's historic roots, development, and its place in Grand Prix racing, detailing its triumphs, struggles and disappointments, as well as the spirited challenges from Maserati, Ferrari, Gordini and Lancia. With carefully crafted observations and conclusions, given added drama by richly detailed illustrations, this book captures the energy and dynamic nature of these racing seasons, and shows that Juan Fangio was indeed the ultimate master of the art and science of racing a Grand Prix automobile; the W 196 R the instrument with which he honed his skills. This book captures the decisive moments when victory - hanging in the balance - tilted in Fangio's favor, due to his iron discipline, and steady hand on the wheel. The W 196 R's racing days may be long gone, but the car remains a shining star of Mercedes-Benz' participation in motor sport heritage events worldwide. It is this timeless appeal of the W 196 R that gives Two Summers its vitality, charm and enduring attraction.
