HTML is one of the most widely used languages in the development of web pages or websites. It is the most essential language to learn for a programmer to be a great web designer. HTML is a bottom-line language offered in all organisations and technical schools that facilitate Web Development Courses.

"Beginners Guide to HTML to Master your Web Designing" is to accommodate beginners about learning the concepts of HTML programming. This book is the source of complete guidelines you need to start your career in learning Hypertext Markup Language. This book is compiled for both beginners and experienced programmers to achieve their goals in a programming career.

It is a complete blend of the basic concepts, programming syntax, solved examples, and practical questions to obtain a firm grip on all the topics needed to code a unique HTML page. First of all, you will learn about the invention and the history of HTML language. In the beginning chapters, you will learn about the basic concepts and standards of how to code a perfect HTML page by learning HTML basic tags, elements, attributes, formatting, phrase tags, meta tags, comments, images, tables, lists, text links, image links, email links, frames, colors & backgrounds, fonts, etc. After studying the building blocks of HTML, you will be involved in the advanced versions and topics of HTML that provide more features to code and a higher level of expertise in web development. Become an expert today!

Modern Web Design in 30 Days

Laurence Lars Svekis

2026-05-04 Learn web design through a structured 30-day learning path that combines coding fundamentals, design thinking, and practical projects. Build functional web pages while understanding how modern websites are structured and styled. Key Features Follow a clear 30-day roadmap that gradually builds web development skills and confidence Learn modern layout techniques including Flexbox, Grid, and responsive design fundamentals Reinforce concepts with guided experiments, reflection prompts, and practical mini projects Book

Description Modern Web Design in 30 Days introduces the core technologies behind modern websites through a structured and approachable

learning journey. Designed for beginners, the book guides readers through the tools used to build web pages while encouraging a practical, hands-on learning process. The journey begins with the foundations of how the web works, explaining how browsers interpret HTML, CSS, and JavaScript to display and control pages. Readers learn to structure content with semantic HTML, apply visual styling with CSS, and add interactivity using JavaScript. As the chapters progress, the book explores layout techniques such as Flexbox and CSS Grid, responsive design for different screen sizes, and principles that improve usability and visual clarity. Readers gain insight into how websites organize content, structure layouts, and guide user interaction. Each chapter encourages experimentation, allowing readers to modify code, test ideas, and observe results. The book also introduces AI-assisted prompts that help reinforce understanding and support

Modern Web Design in 30 Days LAURENCE LARS. SVEKIS 2026-01-06 A Hands-On Beginner's Guide to HTML, CSS & JavaScript with Projects, Exercises, and AI-Powered Learning Do you want to learn web design but feel overwhelmed by HTML, CSS, and JavaScript? Have you tried tutorials before, only to get stuck, confused, or unsure what to learn next? Modern Web Design in 30 Days is a complete, beginner-friendly roadmap designed to take you from zero experience to confidently building, styling, and publishing real websites - one focused day at a time. This book is not about memorizing syntax or copying endless code examples. It's about learning by doing, building confidence through hands-on projects, and developing the mindset of a modern web designer. What You'll Learn in This Book Over 30 carefully structured days,

you will:

- Understand how the web actually works
- Build real web pages using HTML
- Design layouts and visual styles with CSS
- Add interactivity and logic using JavaScript
- Learn how to debug and fix common errors
- Improve performance, accessibility, and usability
- Deploy a live website to the internet
- Build a beginner-ready portfolio project
- Learn how to keep learning without getting lost

By the end of the book, you won't just "know some code" - you'll know how to build, think, and learn like a web designer. The Vibe Learning Approach This book uses the Vibe Learning method, a human-centered approach designed to make learning stick. Instead of passive reading, each chapter includes: Clear learning objectives Hands-on exercises and mini projects Real-world examples explained in plain English Reflection prompts to lock in understanding Beginner-safe experiments (break it, fix it, learn) AI prompts to extend learning and deepen understanding You're

encouraged to experiment, make mistakes, and learn through curiosity - the same way real developers do. Learn with AI - The Right Way AI is integrated throughout the book as a learning companion, not a shortcut. You'll learn how to use AI to: Explain confusing concepts Help debug errors Review your code Suggest improvements Guide your next learning steps All while still thinking critically and building skills yourself. Who This Book Is For This book is perfect for: Absolute beginners with no coding experience Career changers exploring web design Designers learning front-end fundamentals Students and self-learners of any age Anyone who wants a clear, structured path into web development No prior knowledge required. What Makes This Book Different □ A true 30-day learning plan □ Beginner-friendly explanations (no jargon overload) □ Real projects - not toy examples □ Focus on confidence, not perfection □ Strong emphasis on learning how to learn □

Includes printable cheat sheets, glossary, and references □ Companion GitHub repository with all source code About the Author Laurence Lars Svekis is a best-selling author, developer, and educator who has taught over 2 million students worldwide how to code and build real projects. Known for his clear, practical teaching style, Laurence specializes in helping beginners overcome confusion, build confidence, and become self-directed learners. Start Building Today You don't need to feel "ready" to begin. You just need to start.
