*7001 Resumes-Plus Second Edition* Ferris E. Merhish 2010 In this second chronicle about Deborah, she faces an enemy whose sole purpose is to kill every human being in the universe. The location of the enemy's home planets is unknown. This enemy has unlimited ships and no concern

about the high losses to their personnel. The initial evaluation is that the enemy may not even be human. They are given the name, Grays. A creature like the Grays seems rather harmless compared to what fiction shows you. The Grays went unchallenged only because they looked so weak and fragile. No one saw them as a serious threat. I can only think of the army ants on the march. No one takes an ant seriously; however, an army of ants will devastate an area and kill every living creature. The Grays are the same type of threat to mankind. As the Grays are building up their fleets and personnel, Deborah desperately searches the known universe for additional personnel; in this search she even goes to primitive nations. The United States strips its military forces to provide as many personnel as possible. Despite this effort, there are still not enough personnel. Deborah's scientists are working around the clock to not only upgrade her weapons, but also provide her with new types of weapons. Ramah and the United States are making a maximum effort to prepare for the upcoming battle with the Grays. In this battle either the humans or the Grays will become extinct.

**Careerealism** J. T. O'Donnell 2008-04 Why are so many people unhappy on-the-job? . As many as 7 out of 10 Americans are currently dissatisfied with their careers. . Expensive college degrees are seen by our society as a requirement to enter the American workforce. Yet, many students fail to graduate with the skills and knowledge necessary to embark on a satisfying career path. The result is an unprepared individual, saddled with debt, and frustrated with a system that has left them hanging with respect to making good career decisions. . The concept of work-life balance continues to elude our society as thousands of workers complain of 'living to work' instead of 'working to live.' It's no secret that career satisfaction eludes much of the American working population, but what's worse is the lack of resources and coaching to help today's employee find the career satisfaction they seek. In this innovative, step-by-step guide,

workplace expert, professional development specialist, and nationally syndicated career advice columnist, J.T. O'Donnell ([www.jtodonnell.com](http://www.jtodonnell.com)) unlocks the secrets to working smarter when it comes to creating a career you can get excited about. With more than 15 years experience, having coached thousands of individuals, O'Donnell will show you how to develop an authentic definition of professional success that will get you results. Here's what readers have to say: Her strategic approach really helped me flesh out what traits and experience I brought to the table for a potential employer in a different field. Her methods, encouragement and continued support have led me to find the right career path. - Helen D. I hated my job, wanted out, and didn't know where to begin. I had a decision to make: I could continue on the track to working my 9-5 job in front of a desk and let it define me and make me miserable, or look for something different. J.T. showed me that it's not your job that defines you at all; it's you who defines your job. She worked with me to figure out my strengths and work on my weaknesses. J.T. helped me learn that who I am is far more than the paycheck I bring in. Through that exploration of my own real desires, J.T. helped me to realize that I needed a far more creative outlet to be successful in. I can truly say that without J.T.'s help, I certainly would not be where I am today. I'm more aware of my life and the people in it...I absolutely love my job and really feel successful. I owe an immense amount of gratitude to J.T. for getting me to this place in my life. - Danielle H. The information in this book is so on target, I wish I'd found it earlier in my career. I can't begin to express what it is like to have finally found not just the reasons, but the solutions, to my past career disappointments. - John T.
