Clifford K. Madsen's Contributions to Music Education and Music

Therapy Jessica Nápoles

2020-02-20 Clifford K.

Madsen's Contributions to Music Education and Music Therapy: Love of Learning summarizes the life and work of Dr. Clifford Madsen, a luminary in music education and author of a dozen books, the first recipient of the Senior Researcher Award from the Music Educators National Conference, and mentor and teacher to generations of music educators and music therapists. This text presents

Madsen's philosophy, career, and legacy through an exploration of primary sources and extensive interviews with former students, outlining the philosophical tenets Madsen espouses while contextualizing those tenets within his teachings, research, and service. What began as an exercise to record Madsen's work for archival purposes resulted in a study of how his philosophy manifested in a significant offering to music educators. Throughout a prolific academic career, Dr. Madsen has led Florida State University to a position of preeminence in the fields of music education and music therapy. Yet as detailed here, his greatest impact goes beyond lesson plans and syllabi, epitomized by a love of learning. As Bob Duke stated, "What is monumental about Cliff is not what he has written. It is what he has done as a human being for other human beings."

The Jan & Dean Record Mark

successful artists of the late
1950s through the mid-1960s,

with hits including "Baby Talk,"
"Surf City," "Dead Man's

Slapstick humor and offbeat
personas were a big part of

colleagues is included. Studio invoices, contract details, tape box notes, copyright information and other particulars shed light on how music was made in the Hollywood studio system of the 1960s.

Dead Man's Curve Mark A. Moore 2021-08-02 Jan Berry, leader of the music duo Jan & Dean from the late 1950s to mid-1960s, was an intense character who experienced more in his first 25 years than many do in a lifetime. As an architect of the West Coast sound, he was one of rock 'n' roll's original rebels--brilliant, charismatic, reckless, and flawed. As a songwriter, music arranger, and record producer for Nevin-Kirshner Associates and Screen Gems-Columbia Music, Berry was one of the pioneering self-produced artists of his era in Hollywood. He lived a dual life, reaching the top of the charts with Jan & Dean while transitioning from college student to medical student, until an automobile accident in 1966 changed his trajectory forever. Suffering

from brain damage and partial paralysis, Jan spent the rest of his life trying to come back from Dead Man's Curve. His story is told here in-depth for the first time, based on extensive primary source documentation and supplemented by the stories and memories of Jan's family members, friends, music industry colleagues, and contemporaries. From the birth of rock to the bitter end, Berry's life story is thrilling, humorous, unsettling, and disturbing, yet ultimately uplifting.
