Sustainable Hospitality and Tourism as Motors for Development Willy Legrand 2012-09-10 It is now widely agreed that the climate is changing, global resources are diminishing and biodiversity is suffering. Developing countries -- many of them considered by the World Tourism Organization to be 'Top Emerging Tourism Destinations' (UNWTO, 2009) -- are already suffering the full frontal effect of environmental degradation. The challenge for developing countries is a triple-edged sword, how can economic prosperity be achieved without the perpetual depletion of nature's reserves, the destruction of rural habitat and the dislocation of traditional societies? Many emerging nations are looking increasingly to the tourism industry as the motor for economic development, with hospitality businesses at the forefront. This book uses twenty-five case studies to demonstrate how it is possible to create income and stimulate regional socio-economic development by using sustainable hospitality and tourism attractions. These case studies focus on issues such as the protection of indigenous cultures as a source of touristic curiosity; the preservation of the environment and the protection of endangered species -- such as the plight of turtles in Sri Lanka or butterflies in Costa Rica to encourage tourism. Some cases cover government supported projects, for example, the green parks venture and regional tourism development in the Philippines, an archaeological park initiative in Honduras and the diversity of nature tourism in St. Vincent. *Sustainable Hospitality and Tourism as Motors for Development* is designed to give

students, academics and practitioners a guide for best practices of sustainable hospitality operations in developing countries. Based on case studies, it provides a road map of how to achieve the goals of sustainability giving benchmark examples. The book not only taps into a contemporary business subject, but aims to provide readers with a better understanding of how sustainable theories can be put into practice in hospitality and tourism industries in developing countries.

Women's Empowerment Within the Tourism Industry Bayram, Gül Erkol 2023-08-01 In recent decades, more women around the world have taken the opportunity to enter the market, join the workforce, and start their own entrepreneurial ventures. These changes have had a strong impact on market demographics. Particularly within the tourism industry, it is important to investigate the behavior, motivations, experiences, and needs of women as travelers, employees, and entrepreneurs. *Women's Empowerment Within the Tourism Industry* offers a conversant and comprehensive overview of the themes and concepts of women as tourists, employees, and entrepreneurs in tourism. Providing interdisciplinary insights from leading international researchers and academicians, this book makes a critical contribution to the knowledge of women's participation within the tourism industry. It discusses the nature of their work and ways in which tourism creates tension between the attitudes and conduct of tourists and the beliefs and behavior of local women. Covering topics such as consumer experience, gender studies, and women's employment, this premier reference source is an excellent resource for business leaders and managers, entrepreneurs, marketers, government officials, students and

educators of higher education, librarians, researchers, and academicians.

Active Sport Tourism Heather J. Gibson

2020-05-21 This volume serves to expand theory-driven understandings of active sport tourism by showcasing five empirical studies examining a variety of active sport tourism contexts. These include table tennis at the World Veteran's Championships, ultramarathon, running/cycling/triathlon, skiing/snowboarding, and a range of issues such as active ageing and travel-related carbon footprints. The volume also seeks to explore possibilities for future directions in active sport tourism and act as a catalyst for ongoing scholarly inquiry. Travelling to take part in active sporting pursuits is growing in popularity around the world. Active sport tourism encompasses travel to participate in a myriad sports, as well as in competitive participatory sport events. Much of the recent growth in active sport tourism is associated with travel to compete in participatory sport events, notably the "big city" international marathon events; amateur running, triathlon, and cycling events; Masters Games; and team sport tournaments. While the broader sport tourism research literature has tended to focus on spectator-oriented sports events, particularly the mega events such as the Olympic Games, it is only recently that a concerted research agenda in active sport tourism has emerged, making this volume innovative and relevant. This book was originally published as a special issue of the *Journal of Sport & Tourism*.
