Promoting Great Reads to Improve Teen Reading Lucy Schall 2015-02-12

Support current educational initiatives with a ready-to-use tool that will help you with selection, motivation, and skill building relative to titles published within the last five years. New demands by Common Core and other national and state standards mean teachers and librarians need support in pairing high-interest content with skill building that speaks to those standards. This hands-on, research-based resource will help.

Covering 100 titles, it guides you to topics, themes, values, and activities that meet national and state standards. The book's organization—by genres, topics, and themes—will enable librarians to serve customers with specific requests and help teachers build thematic units. Focusing on recent young adult fiction and nonfiction (2010-2014), the guide offers a succinct plot summary, links to popular themes and genres, indication of reading levels, and an engaging booktalk for each title. It also includes guidelines for further promoting each book and extending knowledge through discussion. The author, a former middle and high school teacher, demonstrates how you can foster close reading through paraphrasing, comparison, and response and explains how to strengthen critical thinking among teens. Lists of related titles and notes on gender appeal can be used for readers' advisory.

**A Century of Travels in China** Douglas Kerr 2007-05-01 Writings of travelers have shaped ideas about an evolving China, while preconceived ideas about China also shaped the way they saw the country. A Century of Travels in China explores the impressions of these writers on various themes, from Chinese cities and landscapes to the work of Europeans

abroad. From the time of the first Opium War to the declaration of the People's Republic, China's history has been one of extraordinary change and stubborn continuities. At the same time, the country has beguiled, scared and puzzled people in the West. The Victorian public admired and imitated Chinese fashions, in furniture and design, gardens and clothing, while maintaining a generally negative idea of the Chinese empire as pagan, backward and cruel. In the first half of the twentieth century, the fascination continued. Most foreigners were aware that revolutionary changes were taking place in Chinese politics and society, yet most still knew very little about the country. But what about those few people from the English-speaking world who had first-hand experience of the place? What did they have to say about the "real" China? To answer this question, we have to turn to the travel accounts and memoirs of people who went to see for themselves, during China's most traumatic century. While this book represents the work of expert scholars, it is also accessible to non-specialists with an interest in travel writing and China, and care has been taken to explain the critical terms and ideas deployed in the essays from recent scholarship of the travel genre.

*Aesthetics of Literary Subjects* Dushan Bresky 2002 Literary Practice III concludes Dushan Bresky's major critical trilogy. Following Volume I, outlining a comprehensive method for evaluating literary art, and Volume II, analyzing the elusive stimulative qualities of style, Volume III focuses on the aesthetics of literary content. Its time-tested subjects include violent and psychological conflicts, erotic bonds, as well as humorous, supernatural, fantastic, utopian, and bizarre topics. In estimating their potential impact, Bresky draws not only on the French heritage (his academic specialty) but branches into all Western

literatures, ranging from the Illiad and the medieval Legenda Aurea to the novels of Samuel Beckett and John Updike. In the «Biocybernetic Epilog» written just before his death in 1998, collaborator Miroslav Malik discusses the evolution of biometric techniques designed to monitor our responses to perception and their auxiliary role in esthetic literary criticism.

**Folktales of the Jews, V. 3 (Tales from Arab Lands)** Dan Ben Amos 2011-05-01 Thanks to these generous donors for making the publication of the books in this series possible: Lloyd E. Cotsen; The Maurice Amado Foundation; National Endowment for the Humanities; and the National Foundation for Jewish Culture Tales from Arab Lands presents tales from North Africa, Yemen, Lebanon, Syria, and Iraq in the latest volume of the most important collection of Jewish folktales ever published. This is the third book in the multi-volume series in the tradition of Louis Ginzberg's timeless classic, *Legends of the Jews*. The tales here and the others in this series have been selected from the Israel Folktale Archives (IFA), named in Honor of Dov Noy, at The University of Haifa, a treasure house of Jewish lore that has remained largely unavailable to the entire world until now. Since the creation of the State of Israel, the IFA has collected more than 20,000 tales from newly arrived immigrants, long-lost stories shared by their families from around the world. The tales come from the major ethno-linguistic communities of the Jewish world and are representative of a wide variety of subjects and motifs, especially rich in Jewish content and context. Each of the tales is accompanied by in-depth commentary that explains the tale's cultural, historical, and literary background and its similarity to other tales in the IFA collection, and extensive scholarly notes. There is also an introduction that describes the culture and its folk narrative tradition, a world map of the areas covered, illustrations, biographies of the collectors and narrators, tale type and motif indexes, a subject index, and a comprehensive bibliography. Until the establishment of the IFA, we had had only limited access to the wide range of Jewish folk narratives. Even in Israel, the gathering place of the most wide-ranging cross-section of world Jewry, these folktales have

remained largely unknown. Many of the communities no longer exist as cohesive societies in their representative lands; the Holocaust, migration, and changes in living styles have made the continuation of these tales impossible. This series is a monument to a rich but vanishing oral tradition. This series is a monument to a rich but vanishing oral tradition.
