Expanding Reading Comprehension in Grades 3-6 Katherine A. Dougherty Stahl 2022-02-21
Students in grades 3-6 need to use increasingly sophisticated comprehension skills and strategies as they read and build knowledge across disciplinary content areas. Grounded in research, this book presents effective practices for integrating literacy instruction with literature, science, and social studies. Chapters address text selection, vocabulary development, strategy instruction, discussion formats, writing to express and expand comprehension, assessment, and more. Ways to meet the needs of emergent bilingual and culturally diverse students are highlighted throughout. Ideal for preservice and inservice teachers and professional staff development, the book includes classroom vignettes, text boxes with easy-to-read instructional procedures, and curriculum resources. Helpful reproducible forms can be downloaded and printed in a convenient 8 1/2" x 11" size. Developing Core Literacy Proficiencies, Grade 11 Odell Education 2016-09-13 The Developing Core Literacy Proficiencies program is an integrated set of English Language Arts/Literacy units spanning grades 6-12 that provide student-

centered instruction on a set of literacy proficiencies at the heart of the Common Core State Standards (CCSS). Reading Closely for Textual Details Making Evidence-Based Claims Making Evidence-Based Claims about Literary Technique (Grades 9-12) Researching to Deepen Understanding Building Evidence-Based Arguments The program approaches literacy through the development of knowledge, literacy skills, and academic habits. Throughout the activities, students develop their literacy along these three paths in an integrated, engaging, and empowering way. Knowledge: The texts and topics students encounter in the program have been carefully selected to expose them to rich and varied ideas and perspectives of cultural significance. These texts not only equip students with key ideas for participating knowledgeably in the important discussions of our time, but also contain the complexity of expression necessary for developing college- and career-ready literacy skills. Literacy Skills: The program articulates and targets instruction and assessment on twenty CCSS-aligned literacy skills ranging from “making inferences” to “reflecting critically.” Students focus on this set of twenty skills throughout the year and program, continually applying them in new and more sophisticated ways. Academic Habits: The program articulates twelve academic habits for students to develop, apply, and extend as they progress through the sequence of instruction. Instructional notes allow teachers to introduce and discuss academic habits such as “preparing” and “completing tasks” that are essential to students’ success in the classroom. The program materials include a comprehensive set of instructional sequences, teacher notes, handouts, assessments, rubrics, and graphic organizers designed to support students with a diversity of educational experiences and needs. The integrated assessment system, centered around the literacy skills and academic habits, allows for the coherent evaluation of student literacy development over the course of the year and vertically across all grade levels.

What Are You Grouping For?, Grades 3-8 Julie Wright 2018-07-26 Intermediate grade readers don't need to be guided as much as they need to be engaged—and authors Julie Wright and Barry Hoonan have solutions for doing just that using small groups. You'll get practical tools, classroom examples, and actionable steps essential for starting, sustaining, and mastering the management of small groups. This book explains the five teacher moves that work together to support students' reading independence through small group learning—kidwatching, pivoting, assessing, curating, and planning—and provides examples to guide you and your students toward success. This resource will empower you with tools to ensure that readers are doing the reading, thinking, and doing—not you.
