Using a case-based format that mirrors real-world scenarios involving patients and clinicians, Drs. Liao, Staloff, and Joo impart foundational health systems knowledge and skills in ways that are intuitive, enjoyable, and accessible for clinicians and health system leaders alike. The book is divided into two parts. Part I follows the journey of a patient navigating systems factors that influence her care across care settings. Part II follows the journey of a clinician working to improve care delivery using “systems solutions” from fields such as quality improvement, design thinking, change management, and implementation science.
