Isaac Orobio Carsten Wilke
2018-11-05 The series Studies and Texts in Scepticism contains monographs, translations, and collected essays exploring scepticism in its dual manifestation as a purely philosophical tradition and as a set of sceptical strategies, concepts, and attitudes in the cultural field - especially in religions, perhaps most notably in Judaism. In such cultural contexts scepticism manifests as a critical attitude towards different dimensions and systems of secular or revealed knowledge and towards religious and political authorities. It is not merely an intellectual or theoretical worldview, but a critical form of life that expresses itself in such diverse phenomena as religion, literature, and society. Further book series of the Maimonides Centre for Advanced Studies are Jewish

Thought, Philosophy, and Religion and the Yearbook of the Maimonides Centre for Advances Studies.

Trade-Offs Mark S. Bonham
2019-03-01 Trade-Offs: The History of Canada-U.S. Trade Negotiations was the subject of the Canadian Business History Association's annual conference held in November 2018. The conference discussed the history of Canada's efforts in negotiating past trade agreements with the United States, including the Reciprocity Agreement of 1854, the AutoPact (1965), the Free Trade Agreement (1987), the North American Free Trade Agreement (1994), and the most recent United States Mexico Canada Agreement (2018). A critical assessment is provided through twelve presentations which are intended to be the basis of broad guidelines around future

trade negotiation efforts. *Theological Libraries and Library Associations in Europe* 2022-08-15 During the past 50 years, theological libraries have confronted secularisation and religious pluralism, along with revolutionary technological developments that brought not only significant challenges but also unexpected opportunities to adopt new instruments for the transfer of knowledge through the automation and computerisation of libraries. This book shows how European theological libraries tackled these challenges; how they survived by redefining their task, by participating in the renewal of scholarly librarianship, and by networking internationally. Since 1972, BETH, the Association of European Theological Libraries, has stimulated this process by enabling contacts among a growing number of national library associations all over Europe. Phrasis 2006 A scholarly journal devoted to the study of

Dutch, French, English, German, Spanish, Italian, Latin, (ancient and new) Greek, and the Scandinavian language and literature. *Italian Journal* 2002 *The Desert Encyclopedia* Robert Hauptman 2024-08-06 This reference work is the first English-language A-Z compendium on all topics related to deserts, including geography, geology, meteorology, climatology, hydrology, botany, zoology, anthropology, art, music, film, culture, sports, as well as the specific and diversely different deserts that one finds in all parts of the world. Definitions, explanations, and clarifications will be contained in more than 2,300 entries that vary in length from a brief sentence to detailed overviews of more complex subjects. The Desert Encyclopedia will be invaluable as a source of data and information, but it is also enjoyable to read straight through. It is also replete with line drawings, black-and-white illustrations, maps, and images from outstanding

photographers.

Trauma, History, Philosophy

György Márkus 2007 In the age of the war on terror and what

one critic has called 'disaster capitalism', the topic of trauma

has assumed renewed cultural relevance. Trauma, Historicity,

Philosophy is a collection of essays by Australian

philosophers, psychoanalysts, and cultural theorists on the

genealogy, semantics, and relevance of the concept of

'trauma' in the contemporary world. The collection features

two essays by Agnes Heller and Gyorgy Markus addressing

trauma, and what

psychoanalysis' elevation of 'trauma' to cultural centrality

means (and has meant) for modern philosophy and social

theory. Other essays address '911', cyber-terrorism, the

shoah, political tyranny, the 'end of history', and engage

with the thought of

Kierkegaard, Schmitt, Hobbes,

Derrida, Agamben, Badiou,

Zizek, Lacan and Freud.

Italian Colonialism Jacqueline

Andall 2005 The essays in this

volume explores the ways in which the Italian colonial

experience continues to be

relevant, despite the extent to which forgetting colonialism

became an integral part of Italian culture and national

identity.

respected public charter which endowed the ABC with a distinctive and important role in informing, educating and entertaining the Australian public. Successive federal government funding cuts have shrunk staffing levels and services while it has pursued a corporatist model that mimics the trappings and practices of commercial media. In that process it has become politicised and trivialised, thereby threatening its demise. The book is a unique and timely contribution at a time of dwindling interest for the funding of public assets everywhere. There is no other book in the market that addresses the decline of the organisation (the ABC) and analyses the reasons for its demise within an organisational theoretical framework. The book is written for an educated general audience, with academics and media practitioners specifically in mind, and has everyday applications for business organisations operating in the public sector by bringing

together important findings of public funding, budgets, management and organisational strategies and evolution.

The Road to Information

Literacy Roisin Gwyer 2012
Information literacy has been identified as a necessary skill for life, work and citizenship - as well as for academic study - for all of us living in today's information society. This international collection brings together practitioner and research papers from all sectors of information work. It includes case studies and good practice guides, including how librarians and information workers can facilitate information literacy from pre-school children to established researchers, digital literacy and information literacy for citizens.

dieser Arbeit ist es, die
Erwartungen sowie die
Realitätswahrnehmungen von
Schülern und Lehrern
hinsichtlich der Frage "Was ist
guter Unterricht?" durch
Merkmalsausprägungen,
welche aus den zehn

miteinander verglichen
werden, um Parallelen und

Sichtweisen von Lehrern und

stellt sich anschließend die
Frage, welche Konsequenzen
sich durch die jeweiligen
Konstellationen der
Sichtweisen ergeben, um dem
gemeinsamen Ziel von

Spaniards and Nazi Germany
Wayne H. Bowen 2000 Only the
indecisiveness of Spanish
dictator Franco and diplomatic
mistakes by the Nazis, argues
Bowed (history, Ouachita

supporters in the Spanish

Spain into World War II on the

out, Spaniards helped Germany
by serving in its armies,

2019-09-11 *Performativity, Cultural Construction, and the Graphic Narrative* draws on performance studies scholarship to understand the social impact of graphic novels and their sociopolitical function. Addressing issues of race, gender, ethnicity, race, war, mental illness, and the environment, the volume encompasses the diversity and variety inherent in the graphic narrative medium. Informed by the scholarship of Dwight Conquergood and his model for performance praxis, this collection of essays makes links between these seemingly disparate areas of study to open new avenues of research for comics and graphic narratives. An international team of authors offer a detailed analysis of new and classical graphic texts from Britain, Iran, India, and Canada as well as the United States.
