On-the-Job Math Mysteries

Marya Washington Tyler
2021-09-03 The author of the
best-selling Real Life Math
Mysteries offers students more
close encounters with engaging
professionals! After working
through the math problems
encountered on the job, your
students will have no doubt
about the absolute importance
of math in the real world. Just
like a field trip, but a lot more
practical, this book takes
students out into the field
where they count fish, direct
air traffic, carve a totem pole,
write software code, care for
orphaned sea creatures,
recover sunken valuables,

mush dogs, salvage timber,
feed the homeless, film wildlife,
and a lot more. The math
problems are tied to NCTM
standards, and students will
use skills such as selecting an
operation, determining place
value, using fractions and
decimals, working with
geometry, applying
measurement skills,
estimating, and recording and
analyzing data to solve them.
Each set of problems is
presented on separate
reproducible worksheets, and
the book includes a list of skills
and comprehensive answer
key. Working with the
engaging and diverse
mathematics presented here,
students will see exactly what
is at stake in problem solving,
why mathematics is essential,
and why accuracy matters. The
light will go on for your
students as they see that
mathematical skills are
essential to following their
dreams. Grades 4-8

Key Selling Features Attractive 4-color page design creates a student-friendly learning experience. All pages are filled to the brim with activities for maximum educational value. High-interest features and real-world applications enliven the learning experience and hold student interest Week-by-week summer study plans support use as a "summer bridge" learning and reinforcement program. All content aligned to state and national standards Instructional content is scaffolded; students are shown examples, then prompted through the process of solving problems independently. Complete review of Grade 1 math aligned to the new "common core" state standards Week-by-week study plans support use as "summer bridge" program for children entering Grade 1 Drill and practice to reinforce learning Market / Audience The market for these books consists of parents who are anxious because their children have to take NCLB tests or because their children are falling

behind in school. Other parents will buy the books simply because their children need or want additional practice to reinforce school-taught skills. Sales for this type of workbook always peak in late spring when parents look for "summer bridge" study aids. A week-by-week summer study plan included in the book supports this use.
