ACS General Chemistry Exam Prep Made Easy Academy Don't buy just a book. Buy a system backed by brain science. You're standing

at the exam room door with a semester of general chemistry crammed into your head — and no idea what will actually show up. Sound familiar? Most ACS prep resources hand you content and wish you luck. This one gives you a complete, neuroscience-backed 3-part learning system that tells you exactly what to study, how to study it, and how to prove you know it. Still blanking on quantum number rules under pressure? Spending hours on content that won't appear? Recognizing answers in practice but freezing when you have to generate them? That's not a knowledge problem. That's a method problem. This book fixes the method.

Step 1: Read It — Build Your Foundation: Every Part opens with a comprehensive Study Guide before you touch a single problem. Each includes: -High-Yield Objectives -Key Terms -Concept Overview -Stepwise Pathways -Side-by-Side Breakdowns -Mnemonics -Must-Know Facts -Application Scenarios -Common Mistakes -2-Minute Rapid Review -Self-Assessment Checklist

Three printable templates keep learning active as you go — Mind Map, Comparison Chart, and Cornell Notes — guided by an 11 Week Study Plan that tells you exactly what to do and when. All additionally available as printable PDFs via QR code.

Step 2: Rhyme It — Lock It In: Memory Compact rhyming poems transform everything from electron configuration rules to Le Chatelier's Principle into sequences your brain wants to store. The Made Easy Highlighting System tells you exactly what to highlight and why — six color-coded categories that turn your book into a visual memory map you can scan right up to exam day.

Step 3: Remember It — Prove Mastery: Unlimited practice when you need it. A full exam simulation when you're ready. Unlimited Online Quiz Bank — 3 scenario-based questions per topic with detailed rationales for correct and incorrect answers. Scan the QR code and enter your access code from the back of the book

Full-Length ACS-Format Exam Simulation — one complete timed exam mirroring real ACS structure, content distribution, and difficulty based on published blueprints. Not generic practice. The right content, the right proportions, the right format. Every element is grounded in Cognitive Load Theory, Retrieval Practice, Spaced Repetition, and Elaborative Encoding. Not because those

are impressive words. Because they produce results. Eleven Parts. One system. Everything you need. You've got this. Made Easy Academy has got you.
