Out of Phase: Encounter Ivan Peraza 2024-04-09

This book is a sci-fi novel about the not-so-distant future when humankind lives peacefully under a world government. Humans have built space stations and colonized the Moon and Mars. Mining has been moved to the asteroid belt. I wrote this story from the point of view of the scientists who participated in the discovery. It is not about conflict but about processes and tribulations as the scientists bring their discoveries to the higher-ups.

Alien Abduction in the Cinema Paul Meehan 2023-08-03 The alien abduction phenomenon is one of the enduring enigmas of our time. While the reality of alien abductions is a hotly debated topic among UFO researchers, scientists, skeptics and true believers alike, the phenomenon indisputably exists as an artifact of popular culture. This book analyzes more than 75 films that draw their inspiration from allegedly fact-based accounts of alien contact, from 1951's *The Man from Planet X* to *Contactee* in 2021. These films are examined in terms of both their cinematic qualities and their exploration of thematic elements derived from abduction reports. Abduction motifs that appear in science fiction classics such as *The Day the Earth Stood Still*, 2001 and *Close Encounters* are analyzed, as well as those in lesser-known films like *The Stranger Within*, *Starship Invasions*, *Dark Skies* and *Proximity*. Special attention is given to movies based on the famed experiences of abductees Betty and Barney Hill, Whitley Strieber and Travis Walton. The book also addresses skeptical theories about the origins of

the phenomenon in science fiction and examines an uncanny prescience that appears to anticipate these inexplicable occurrences.

Women's Encounters with the Mental

Health Establishment Elayne Clift 2014-01-27

Explore women's first-person experiences with the mental health establishment! This unique contemporary anthology of women's experiential writing shares women's realities, perceptions, and experiences (positive and negative) within the therapeutic environment. These artistic expressions of personal experience will help women understand their own encounters in a new light. They are also instructive and enlightening for any practitioner working with women in a mental health setting. Charlotte Perkins Gilman's famous short story (included here), *The Yellow Wallpaper*, which inspired this title, has come to represent the struggle of contemporary women to be understood by the therapeutic milieu from whom they seek psychological support and psychiatric treatment. An icon of feminist writing, the 1892 story symbolizes affirmation and validation for the female experience regarding mental health and therapy. This anthology, in the spirit of Gilman's work, gives voice to today's women so that their own encounters with the mental health establishment can be validating and affirming to others. It will also enlighten those in the helping professions as they extend their services to women in a time of growing need and shrinking resources. In addition to *The Yellow Wallpaper* and a foreword and afterword by noted psychiatric professionals, *Women's Encounters with the Mental Health Establishment: Escaping the Yellow Wallpaper* also contains works by authors including: Sylvia Plath Kate Millett Anne Sexton Lauren Slater Martha Manning Elayne Clift and many more! Through prose and poetry, the contributors to this volume offer a creative, artistic, and highly readable contribution to the literatures of women's studies and psychology! Close Encounters of the Third Kind Ray Morton 2007-11 (Applause Books). "Morton has written the definitive book on this innovative movie by Steven Spielberg...Meticulous research of this caliber is not found in other books on Close Encounters . Fans will find Morton's take informative and fascinating." Library Journal . Steven Spielberg's 1977 masterpiece used all of the power and magic of cinema to tell a story of man's first meeting with extraterrestrial beings. Renouncing the fear and pessimism of the day, writer/director Spielberg boldly envisioned this as a peaceful, spiritual event full of hope and possibility. This awe-inspiring message made a powerful impact on audiences desperate for something to believe in. The film was a massive box-office hit and revolutionized the movie industry; along with Star Wars , it helped to create the modern blockbuster and ushered in a new era of hi-tech effects. Based on in-depth research and the recollections of many of the film's principal creators, Close Encounters is the first book to chronicle the making of this classic film from its inception through its tumultuous production to its many releases in "special" editions. The book features new interviews with star Teri Garr, producer Michael Phillips, photographic effects supervisor Douglas Trumbull, production designer Joe Alves, and several cinematographers, screenwriters, and special-effects legends. John Hill, Jerry Belson, Hal Barwood, and Matthew Robbins; and special effects legends Richard Yuricich, Robert Swarthe, Dennis Muren, Scott Squires, Greg Jein, and Rocco Gioffre.
