Early Childhood Education Donna Farland-Smith 2019-04-24 This book will serve as a resource for students, researchers, and practitioners in the area of early childhood education. The 18 chapters are divided and organized into the major areas relevant to early childhood education: early childhood development, play, science, mathematics, technology, literacy, and exceptional learners. Each chapter contains an overview of background information pertinent to the chapter and a synopsis of research or a new research study. The information contained in this book provides a foundation for past and/or present research and suggests future research studies.

Writing in Education Elizabeth Chase 2020-08-17 Writing in Education: The Art of Writing for Educators focuses on educators' professional journeys and discoveries about teaching, learning, writing, and self. This book offers insightful discussions about teaching practices, reflective writing, and digital and nondigital representations of meaning. It explores practical matters facing teachers and teacher candidates, such as communicating about one's practice, writing beyond content and page, or conducting classroom observations and maintaining field notes. This volume is divided into three main parts, each of which spotlights a Featured Assignment that examines an area of writing in education. The sample student work that is highlighted in each chapter is designed to support teachers and teacher candidates as they consider the importance and forms of writing as professionals in the field, as well as the roles of writing in their own current or future classrooms.
