*and Addendum. Families of generation seven and later of John (2) and Daniel (2) Epling, 1787-2003* Robert Louis Massard 2003

## **A History of the British Cavalry, 1816 to 1919**

George Charles Henry Victor Paget Marquis of Anglesey 1973 This is the last volume of his monumental chronicle. The author examines the cavalry's role in trench warfare and shows how at the worst crisis moments, the cavalry's superior mobility saved the day.

## **Duval County Tejanos**

Alfredo E. Cardenas 2024-10-15 In Texas, to hear the words "Duval County" evokes Archie and George Parr, politics, and corruption. But this does not represent the full truth about this South Texas county and its Tejano citizens. Duval County Tejanos accentuates the significance and meaning of place,

showcasing Tejanos as historical actors, not bit players. This cultural region comprises la familia, las costumbres, la fe católica, y las comidas. And we must not leave out la política. Tejanos were engaged in community life: they organized politically, cultivated land, and promoted agriculture, livestock raising, the local economy, churches, schools, patriotic celebrations, and social activities. Americano newcomers sought to start and develop a trade economy, but Mexicanos wanted to make sure they held on to their land. The Civil War stunted economic and governmental development but did not prevent the population growing in numbers and diversity, including the arrival of Americanos in more significant numbers. Still, old-time pioneers and newcomers joined hands to build a faith community, develop schools, improve transportation, and

bring commerce to serve their needs. In 1876 Duval County citizens formally petitioned Nueces County for the opportunity to organize themselves. When the railroad rolled into the county seat, San Diego, in 1879, their world changed forever. During the last quarter of the nineteenth century, the Duval County economy exhibited vitality and adaptability—sheep and cattle raising and cotton farming anchored and sustained the local economy. Moreover, Texas land programs opened opportunities to previously landless Tejano farmers. Duval County Tejanos continued to be alarmed as Americanos were cementing their political influence out of proportion to their numbers. In the 1870s Tejanos pursued organized politics to attain fairness and acquire political power corresponding to their population. In the twentieth century the political atmosphere intensified as Tejanos pushed forward their agenda of assuming their proper role, consistent with

their numbers. Ultimately, the Americano actors were replaced by new faces more willing to share in the power structure, both politically and economically, and Tejanos achieved political strength commensurate with their numbers.

### **International Law as Law of the United States**

Jordan J. Paust 2003 A must reference for the practitioner, judge, student, and serious scholar, this revised and updated work provides a thorough and readable text on various types and possibilities of incorporation of international law into our domestic legal processes. The second edition has retained and updated the first six chapters from the first edition and contains the most detailed exposition to date of cases, patterns of use, and trends concerning traditional topics such as customary international law and its incorporation into U.S. law; self-executing treaties and direct and indirect legal effects of treaties; the last-in-time rule and exceptions thereto;

priorities among generally coequal laws of the land; presidential powers and duties; remedies or civil and criminal sanctions; and use of human right precepts throughout U.S. history (including attention to actual types of human rights utilized, the right of access to courts, and the right to an effective remedy). Chapters on human rights and the ninth amendment; jurisdiction and enforcement responsibilities with respect to international criminal law; and the peace power have also been retained and updated, while portions of other chapters have been shifted to other sections of the treatise or deleted. The comprehensive and highly useful index has been retained. The treatise is unique in terms of areas of coverage and its attention to detail, including heavily documented research into literally thousands of U.S. cases. "Professor Paust's new book is not only well-written, but it also contains a rich vein of resources that may be worked for profit by teacher, student, researcher, and

practitioner." -- American Society of International Law Newsletter, on the first edition "Superlative. The idea is original, the execution exhaustive and the impact, simply overwhelming." -- W.M. Weisman, Wesley N. Hohfeld Professor of Jurisprudence, Yale Law School, on the first edition "This is an excellent work for scholarly law libraries...[and] for small- to mid-sized law libraries and academic libraries that emphasize American law and history." -- Legal Information ALERT "Paust's work reflects a vigorous defense of the cause of international law... [It] reflects an impressive mosaic of the author's views that will undoubtedly continue to spark controversy and debate within our community." -- The

postcards exchanged during the first half of the twentieth century as illustrated, first-hand accounts of American life. Almost immediately after the introduction of the generic postcard at the turn of the century, innovations in small, accessible cameras added black and white photographs to the cards. The resulting combination of image and text emerged as a communication device tantamount to social media today. Postcard messages and photographs tell the stories of ordinary lives during a time of far-reaching technological, demographic, and social changes: a family's new combine harvester that could cut 40 acres a day; a young woman trying to find work in a man's world; the sight of an airplane in flight. However, postcards also chronicled and shared hardship and tragedy--the glaring reality of homesteading on the High Plains, natural disasters, preparations for war, and the struggles for racial and gender equality. With a meticulous eye for detail, painstaking

research, and astute commentary, Wilson surveys more than 160 photographic postcards, reproduced in full color, that provide insights into every aspect of life in a time not far removed from our own.

**D.D. Dougherty, Lillie Dougherty and the Early Years of Appalachian State** Doris Perry Stam 2024-10-02

The 125-year history of Appalachian State University rests on the ambitious yet selfless dream of empowering impoverished mountain families through education. Dauphin Disco Dougherty, his wife Lillie Shull Dougherty, and his bachelor brother, Blanford Barnard Dougherty, founded a small semi-private high school in 1899 at great personal cost and would only be able to sustain its growth to a state teacher's college through their fortitude of character and commitment. Drawing extensively on primary sources, some of which have appeared in no previous book, this history presents the first 30

years of the university's life and background. With over 100 historic images and dozens of first-hand accounts and interviews, the text uncovers forgotten foundations and fascinating personal details of the school's founders, bringing the first 30 years of App State to life.

**The Negro in Illinois** Brian Dolinar 2013-07-01 A major document of African American participation in the struggles of the Depression, *The Negro in Illinois* was produced by a special division of the Illinois Writers' Project, one of President Roosevelt's Works Progress Administration programs. The Federal Writers' Project helped to sustain "New Negro" artists during the 1930s and gave them a newfound social consciousness that is reflected in their

writing. Headed by Harlem Renaissance poet Arna Bontemps and white proletarian writer Jack Conroy, *The Negro in Illinois* employed major black writers living in Chicago during the 1930s, including Richard Wright, Margaret Walker, Katherine Dunham, Fenton Johnson, Frank Yerby, and Richard Durham. The authors chronicled the African American experience in Illinois from the beginnings of slavery to Lincoln's emancipation and the Great Migration, with individual chapters discussing various aspects of public and domestic life, recreation, politics, religion, literature, and performing arts. After the project was canceled in 1942, most of the writings went unpublished for more than half a century--until now. Working closely with archivist Michael Flug to select and organize the book, editor Brian Dolinar compiled *The Negro in Illinois* from papers at the Vivian G. Harsh Collection of Afro-American History and Literature at the Carter G.

Woodson Library in Chicago. Dolinar provides an informative introduction and epilogue which explain the origins of the project and place it in the context of the Black Chicago Renaissance. Making available an invaluable perspective on African American life, this volume represents a publication of immense historical and literary importance.

**The Listeners** Roy R. Manstan 2018-09-04 An untold story of scientists and engineers who changed the course of World War I Roy R. Manstan's new book documents the rise of German submarines in World War I and the Allies' successful response of tracking them with innovative listening devices—precursors to modern sonar. *The Listeners: U-boat Hunters During the Great War* details the struggle to find a solution to the unanticipated efficiency of the German U-boat as an undersea predator. Success or failure was in the hands and minds of the scientists and naval personnel at the Naval Experimental

Station in New London, Connecticut. Through the use of archival materials, personal papers, and memoirs *The Listeners* takes readers into the world of the civilian scientists and engineers and naval personnel who were directly involved with the development and use of submarine detection technology during the war.

**This is War and I Ain't**

**Kiddin'** Barbara Gales Macaulay 2022-09-22 Deep in the bottom of her late mother's cedar chest, Barbara Gales Macaulay discovered a lifeline to the past: more than 300 letters written by her late father, Richard "Dick" Gales to his wife "Hay" (Hazel) when he was a soldier during World War II. His letters discussed family, the terrible army food, and funny little incidents but they were also filled with love and hope for the future and signed off with his heartfelt signature, "I love you forever, and I ain't kiddin'." Dick's story not only describes the rigidity of army life and the comradery that made it bearable but also the

fear of never returning home or feeling normal again. This Is War and I Ain't Kiddin': A Collection of World War II Letters from Dad is Barbara Gales Macaulay's labour of love. Along with portions of her dad's letters, Macaulay pieces together this chronology with excerpts from the regimental diary and veterans' memoirs. It's not just a biography of her father, but a book that honours the Canadian men and women affected by the war, whether soldiers fighting on the frontlines, "Bomb Girls" employed in factories or families supporting the troops back home.

The New Langwill Index  
William Waterhouse 1993 This book is an entirely new work rather than a revision of Lyndsay Langwill's sixth edition. It is the standard work in its field, the most comprehensive work on wind instrument makers in any language and a major reference tool for collectors and researchers. Some features of the New Langwill Index are: Entries for nearly

6500 makers and inventors, active from the beginning until the middle of the 20th century; Nearly 400 representations of maker's marks; An index of makers under workplace, listing over 1000 localities; A comprehensive bibliography of over 600 titles. - Publisher.

"genocide" as an international crime, this two-volume set provides a comparative study of historical cases of genocide and mass atrocity—clearly identifying the factors that produced the attitudes and behaviors that led to them—discusses the reasons for rules in war, and examines how the five principles laid out in the Geneva Conventions and other international agreements have functioned in modern warfare. law, Genocide, Mass Atrocity, and War Crimes in Modern History: Blood and Conscience is an easy-to-understand resource that explains why genocides and other atrocities occur, why humanity saw the need to create rules that apply during war, and how culture, rules about war, and the nature of war intersect. The first volume addresses the history and development of the normative regime(s) that define genocide and mass atrocity. Through a comparative study of historical cases that pay particular attention to the factors involved in producing the attitudes and behaviors that led to the incidents of mass slaughter and mistreatment, the author identifies the reasons that genocides and mass atrocities in the 20th century were largely ignored until the early 1990s and why even starting then, responses were inconsistent. The second book discusses why rules in war exist, which factors may lead to the adoption of rules, what defines a war "crime," and how

the five fundamental principles laid out in the Geneva Conventions and other international agreements have actually functioned in modern warfare. It also poses—and answers—the interesting question of why we should obey rules when our opponents do not. The final chapter examines what actions could serve to identify future situations in which mass atrocities may occur and identifies the problems of timely humanitarian intervention in international affairs.
