Physical Change & Aging Sue V. Saxon 1994 Neither superficial nor unduly technical, this book is highly rated by those who teach gerontology to nurses, rehabilitation & physical therapists, & others with a limited background in geriatrics. Separate chapters discuss exercise, nutrition, medications, dementia, death, teaching older adults, & four topics of particular concern: alcoholism, falls, foot care & pain. The CAM and Nursing Coding Manual Alternative Link 2001 The ABC Codes are built upon the belief that this system greatly improves the entrance of CAM and expanded nursing services into mainstream healthcare. The codes provide the infrastructure needed for insurance companies to measure the effectiveness of these services side by side with conventional medicine treatments, thus facilitating responsible patient access to integrated healthcare. This coding system fulfills the need of CAM and nurse providers to accurately communicate procedures and services. The ABC Codes were also built to meet the business requirements of practitioners who file their own electronic healthcare claims to insurance companies. The CAM and Nursing Coding Manual provides a complete overview of the structure codes, samples of the HCFA 1550 and IB-92 forms, how insurance companies use codes, how the system works to support CAM and Nursing, and much more.
