**The Cosmic Calculator** Kenneth Williams 2002 The remarkable system of Vedic mathematics was created after careful study of ancient Sanskrit texts early last century. The Vedic system with its direct, easy and flexible approach forms a complete system of mental mathematics (though the methods can also be written down) and brings out the naturally coherent and unified structure of mathematics. Many of the features and techniques of this unique system are truly amazing in their efficiency and originality. Being a mental system, Vedic Mathematics encourages creativity and innovation. Mental mathematics increases mental agility, improves memory, the ability to hold ideas in the mind and promotes confidence, as well as being of great practical use. This course consists of three textbooks an Answer Book and a Teacher's Guide. The course is aimed at 11-14 year old pupils though some of it is very suitable for children from 8 years. Vedic Mathematics is being taught in many schools world-wide with great success: many top mathematics prizes have been won by students of this system. **Key Maths** David Miller 2001 This series of resources provides comprehensive support for the Framework for Teaching Mathematics for Year 8, with particular emphasis on a three part mathematics lesson. The materials are fully linked to Key Maths and address the beginning and end of the typical lesson structure outlined in the Framework. The activities within the packs provide a variety of presentational models including opportunities for interactive oral work, direct teaching and paired or group activity work to encourage pupils to engage in mathematical conversation. This ICT resource pack provides full details on developing and supporting ICT work in mathematics. Full range of additional worksheets that build on the activities in the CD-ROM and linked to the National Curriculum. The pack makes full reference to DfEE ICT guidelines and other requirements.
