**A Guide to the SQL Standard** C. J. Date 1997 The previous edition of this book established itself as the most complete and understandable treatment of the SQL standard generally available. Many changes have occurred in the SQL standard world since that edition was published. The original 1992 standard itself has been significantly changed and corrected through the publication of two extensive Technical Corrigenda, one in 1994 and one in 1996. Included in the fourth edition of this important book is information on a major new component, the Call-Level Interface (SQL/CLI), and the Persistent Stored Modules feature (SQL/PSM).
