Psychological and Pedagogical Considerations in Digital Textbook Use and Development Railean, Elena 2015-04-30 "This book offers balanced coverage of the technological solutions that contribute to the design of digital textbooks and contribute to achieving learning objectives, offering an emphasis on assessment mechanisms and learning theory"--

Adolescent Literacy in the Era of the

Common Core Jacy Ippolito 2013 Adolescent Literacy in the Era of the Common Core provides school leaders, teachers, and others with strategies and best practices for advancing adolescent literacy in the classroom.

Exceptionally clear and accessible, the book addresses a full range of topics in this vitally important field, including disciplinary literacy; vocabulary instruction; classroom discussion; motivation and engagement related to digital literacy; the use of multiple texts; and writing to learn. This book presents "usable knowledge" of the highest order and of immediate value to school leaders and teachers. It will be required reading for all educators concerned with promoting and furthering adolescent literacy today. "This volume is packed with new and useful ideas for educators working to promote adolescent literacy. Six essential and critical domains are discussed, providing instructional examples and frameworks for classroom use. This is the right book at the right time, describing instruction aligned with the Common Core State Standards." -- Rita M. Bean, professor emerita, University of Pittsburgh "A

must-read for middle and high school content teachers, instructional/literacy coaches, and administrators. This book quickly brings newcomers up-to-date and both affirms and builds upon what others already know. Teachers and administrators alike will leave the book fully prepared for implementation of the Common Core State Standards and new technologies.

This is a resource that won't just sit on a shelf!" -

- Nancy L. Shanklin, literacy, language, and culturally responsive teaching program, School of Education and Human Development, University of Colorado Denver "The editors present research and practice that address six essential domains of adolescent literacy instruction. Readers will find instructional strategies that they can 'do now,' as well as guiding principles for ongoing professional development." -- Pamela A. Mason, director, Language and Literacy Program and Jeanne Chall Reading Lab, Harvard Graduate School of Education Jacy Ippolito is an assistant professor in the School of Education at Salem State University. Joshua Fahey Lawrence is an assistant professor of Language, Literacy, and Technology in the Department of Education at University of California, Irvine. Colleen Zaller has a master's degree in applied linguistics with a focus on adolescent literacy and language development among English language learners. *Science* John Michels (Journalist) 2011

Your Library Is the Answer Christina T. Russo 2015-01-22 Today's tech-savvy and digitally connected students present a new challenge for today's school librarians. This book offers the 21st-century tools and know-how necessary for educators to appeal to and challenge students to learn—and to want to learn. What are the best ways to motivate students to become engaged and develop a passion for learning? Can appealing to their desire for socialization and constant communication—attributes of their lives outside of education—via the integration of cutting-edge technologies and "new media" in the library or classroom serve to ignite creativity, curiosity, and critical thinking? This book shows how you can make use of non-traditional tools such as popular social networks, collaborative technologies, and cloud computing to teach information and communications technologies integrated with the school curriculum to improve student learning—and demonstrates how these same technologies can help you measure skills and mastery learning. The book provides an easy-to-follow blueprint for using collaborative techniques, innovation, and teaching for creativity to achieve the new learning paradigm of self-directed learning, such as flipping the classroom or library. Readers of this book will find concrete, step-by-step examples of proven lesson plans, collaborative models, and time-saving strategies for the successful integration of American Association of School Librarians (AASL) standards. The authors—both award-winning teachers—explain the quantitatively and qualitatively measurable educational value of using these technologies for core curricular and information and communications technologies instruction, showing that they both enhance student learning outcomes and provide data for measuring their impact on learning.

Improving Adolescent Literacy Pamela Craig 2013-10-11 Meet your students' literacy needs

with this book from Pamela Craig and Rebecca Sarlo. Literacy experts Craig and Sarlo explain how the implementation of a Problem Solving/Response to Intervention framework in grades 4-12 will help all students greatly improve their reading skills. Written for secondary teachers and administrators, the book shows how to use PS/RTI as a tool for establishing achievable goals identifying barriers developing action plans monitoring the effectiveness of the intervention Each chapter includes research-based resources and practical guidance to ensure success.

Fat Envelope Frenzy Joie Jager-Hyman 2008 A former Ivy League admissions officer, Joie Jager-Hyman follows five bright and eager high schoolers—students from diverse ethnic, social, and financial backgrounds—as they each put their best foot forward on the road they hope will lead them to the hallowed halls of Harvard University. At once a remarkable true story of dedication, achievement, and heartbreak and a guide for success in an ultra-competitive environment, this important work deserves a place in the home of every family that has ever dreamed of receiving that coveted “fat envelope” in the mail. Jager-Hyman also offers a startlingly frank appraisal of the college admission process and the important roles race and class continue to play in a student's efforts to attend the best school possible.

[Design Recommendations for Intelligent Tutoring Systems](#) Robert Sottolare 2015-07-05
 Design Recommendations for Intelligent Tutoring Systems (ITSs) explores the impact of intelligent tutoring system design on education and training. Specifically, this volume examines "Authoring Tools and Expert Modeling Techniques". The "Design Recommendations book series examines tools and methods to reduce the time and skill required to develop Intelligent Tutoring Systems with the goal of improving the Generalized Intelligent Framework for Tutoring (GIFT). GIFT is a modular, service-oriented architecture developed to capture simplified authoring techniques, promote reuse and standardization of ITSs along with automated instructional techniques and effectiveness evaluation capabilities for adaptive tutoring tools and methods.
