The Cluster Grouping Handbook Dina Brulles  
2020-12-16 Definitive resource for implementing, sustaining, and evaluating schoolwide cluster grouping, fully revised and

expanded. In today's standards-driven era, how can teachers motivate and challenge gifted students and ensure that all students reach their potential? This book provides a compelling answer: the Schoolwide Cluster Grouping Model. The authors explain how the model differs from grouping practices of the past, and they present a roadmap for implementing, sustaining, and evaluating schoolwide cluster grouping. Readers will find a wealth of teacher-tested classroom strategies along with detailed information on identifying gifted students for clusters, gaining support from parents, and providing ongoing professional development to teachers and other staff. The new edition: offers identification and placement guidance for a wide variety of student ages and populations directs special attention toward empowering gifted English language

learners shows teachers how to use the Depth of Knowledge framework to differentiate learning tasks offers new ideas for integrating technology into both professional development and student learning The Cluster Grouping Handbook offers a guide for schools to create a workable, defensible gifted program; to simplify teachers' jobs; and to maximize learning for all students. Digital content includes customizable forms from the book and a PDF presentation; a free PLC/Book Study Guide is also available.

**A Guide for Developing an English Curriculum for the Eighties** Allan A. Glatthorn 1980 Intended for use by those who have direct responsibility for providing leadership in the area of English, this monograph provides a process for improving the English curriculum in a way that is true to the intellectual and emotional needs of students while meeting

society's expectations for a practical curriculum. The monograph begins with a retrospective examination of the teaching of English, follows with an analysis of present trends, and sets forth a process of incremental curriculum development. The remaining chapters provide a framework for a mastery curriculum that requires careful structuring. Topics discussed include (1) curriculum mapping, (2) building a content planning matrix, (3) evaluating and modifying the matrix, (4) developing the syncretic English curriculum, (5) providing for mandated competencies, (6) using research to improve the teaching of English, (7) developing the English notebook, (8) using separate objectives in integrated units, (9) building English mastery into interdisciplinary courses, (10) designing sound elective programs, and (11) writing mastery learning units. An epilogue contains a discussion of a curriculum of meaning. (HOD)

**A Concise Guide to Teaching With Desirable Difficulties** Diane Cummings Persellin  
2023-07-03 This concise guidebook on desirable difficulties is designed to be a resource for academics who are interested in engaging

students according to the findings of peer-reviewed literature and best practices but do not have the time to immerse themselves in the scholarship of teaching and learning. Intentionally brief, the book is intended to: summarize recent research on five aspects of desirable difficulties; provide applications to the college classroom based on this research; include special sections about teaching strategies that are based on best practices; and offer annotated bibliographies and important citations for faculty who want to pursue additional study. The book will provide a foundation for instructors to teach using evidence-based strategies that will strengthen learning and retention in their classrooms. In addition to chapters on the desirable difficulties, the book also includes chapters on teaching first-year and at-risk students to embrace this approach, on negotiating student resistance, and on using this approach in teaching online.
