Math Workbook 2nd grade : Summer Packet. This math packet covers almost every second grade Common Core State Standards (I believe 5 standards were not included). Each page has a student-friendly objective and the standard domain listed. The packet would be a great idea for: 2nd graders who do not want to lose math principles over the summer 1st graders entering 2nd grade who want a head start or 3rd graders who need review. The summer packet is fun, and includes mystery picture activities. The packet covers: 2.OA.1 Addition and Subtraction with word problems 2.OA.2 Addition and Subtraction facts 2.OA.3 Grouping objects 2.OA.4 Repeated Addition as Multiplication 2.NBT.1 Fluently adding and subtracting within 100 2.NBT.2 Counting to 1000 by 1,5,10,100 2.NBT.3 Reading and writing numbers to 1000 in different ways 2.NBT.4 Comparing 3-digit numbers 2.NBT.6 Add more than 2 big numbers 2.NBT.7 Adding and Subtracting with regrouping 2.NBT.8 Adding and Subtracting 10s and 100s mentally 2.MD.1 Using different tools to measure objects 2.MD.3 Estimating the length of objects 2.MD.5 Using addition and subtraction in word problems 2.MD.6 Creating and using a number line 2.MD.7 Telling time to five minutes 2.MD.8 Counting money 2.MD.10 Making a bar graph 2.G.1 Naming shapes. Helpful reviews from teacher and parents. I was looking for a packet that I could just print and send with my kids. This has just the right amount of work and it has great problems for first graders to practice second grade skills. Used this for review the first few weeks of third grade. Will continue to use for students still needing help in these skills! Thank you!

Reaching for Excellence Tibbett L. Speer 1998 This report serves as a resource on student achievement initiatives and offers a perspective or framework through which to view them. It is divided into five sections. Section 1 briefly explores the history of the current student-achievement movement and the issues surrounding it. Section 2 highlights the findings of the National School Boards Association's (NSBA) Student Achievement Survey. The survey was sent to a stratified random sample of 2,000 urban, suburban, and rural districts in 1997. The superintendent and the school board president each received a copy of the survey. A total of 955 superintendents (49 percent of those who received the survey) responded. Section 3 provides close-ups of eight districts and their student-achievement efforts. Section 4 summarizes many of the student-achievement profiles not included in the previous section. These descriptions provide the names of school districts, contact names, phone numbers, and e-mail addresses. Section 5 lists resources school boards can use to build a knowledge base on student achievement. The report concludes with the NSBA's mission statement and a description of its vision.
