Routledge Handbook of Cultural Gerontology Julia Twigg 2015-06-12 Later years are changing under the impact of demographic, social and cultural shifts. No longer confined to the sphere of social welfare, they are now studied within a wider cultural framework that encompasses new experiences and new modes of being. Drawing on influences from the arts and humanities, and deploying diverse methodologies - visual, literary, spatial - and theoretical perspectives Cultural Gerontology has brought new aspects of later life into view. This major new publication draws together these currents including: Theory and Methods; Embodiment; Identities and Social Relationships; Consumption and Leisure; and Time and Space. Based on specially commissioned chapters by leading international authors, the Routledge Handbook of Cultural Gerontology will provide concise authoritative reviews of the key debates and themes shaping this exciting new field.

Designing Trans-Generational Urban Communities Basudatta Sarkar 2024-06-14 This book examines the inclusiveness of city planning and design to address gaps in policies, strategies and design guidelines for developing trans-generational urban communities in India. Identifying key factors and measurable indicators of trans-generational cities within social, physical, and economic dimensions, the volume highlights the need for establishing age-friendly and child-friendly cities and communities. Through a systematic process of ground data collection, the book explores issues related to health, daily routine, lifestyle, recreation, and socialization within vulnerable groups, considering their physical and cognitive limitations for framing adaptable policies. The volume integrates a bottom-up and top-down approach by integrating the needs and perception of the target group obtained from extensive groundwork with the available theories and literature in allied fields adopting a step-by step synchronized methodology. It also presents the way forward for framing policies focusing on socio-economic security, participation, dignity, care, and self-fulfillment. Offering rich empirical research, this book will be useful for students, teachers and researchers of architecture, urban design, urban geography, urban studies, urban development and planning, and child psychology. It will also be of interest to urban planners and designers, policy planners, local government authorities and professionals engaged in the discipline.
